## **Body Sculpting**

### **Strawberry Laser Liposuction**

This ground-breaking body shaping treatment offers a non-invasive, true laser solution for; skin tightening, body contouring and cellulite reduction.

There is no pain or down time, and you can even have a session in your lunchtime break. Whether you spend hours in the gym or follow the strictest of diets, many people suffer from fat pockets that exercise and calorie control simply cannot shift. Similarly, as we age our metabolism begins to slow and these problematic fat pockets can begin to develop. Thanks to our inch loss application, in just 8 treatments this could be a thing of the past.
