

Sew Easy and Sew Creative classes Autumn Term 2011

Sew Creative	Monday 12th September 7.30 -9.30	£6/class
---------------------	----------------------------------------------------	-----------------

As some of you know I try to introduce a theme each term.

Thoughts turn to shorter days and cooler nights and in line with the current trend for recycling I have chosen THRIFT as the theme for the coming months.

Patchwork and rag rugs are going to be the focus for design and make projects with a look at traditional and contemporary techniques along with ideas for small projects.

Background information will be discussed and creative approaches to the techniques encouraged once skills have been accomplished.

English and American techniques will be introduced using hand and machine skills. The first class will start with a hand stitched pincushion using the English method of patchwork. All materials provided for samples but please bring basic sewing kit if possible of needles/pins/scissors/tape measure etc. If you have any scraps of cotton dress weight fabric for patches please bring them.

Sew Easy	Friday 9th September 10.00 – 12.00	£6/class
-----------------	------------------------------------------------------	-----------------

There will be opportunity to use some of the patchwork and rag rug techniques alongside the dressmaking and soft furnishing skills for those members who are interested.

Looking forward to seeing members old and new.

Best wishes

Lorna
