To whom it may concern,

Richard Childers with FleetTax Recovery Specialists called me in April of 2019 about helping us recover taxes relating somehow to our fleet and warehouse operations. Richard just left Salem Leasing, who is our current truck lease provider. We gladly hired FleetTax since there is no risk nor any out of pocket cost for their service. It was really a no-brainer.

Richard and Walt Church came on site to go through our records to prepare our claim. It took a few days for them to compile the information they needed to make our claim and another week or so to file the claim.

Unfortunately, our refund was held up for an extraordinary amount of time as a Claims Agent from the Government was reviewing and trying to revise our claim. We were extremely relieved that Walter took over from there, and met with these folks to work out all the details so we didn't miss time away from our work.

It took a while but we finally received **our five-figure refund** and look forward to getting more refunds for years to come going forward. FleetTax is also exploring other areas in our business for possible refunds.

If you are looking to hire FleetTax to uncover these unique tax rebates and credits, we highly endorse Richard and Walt with FleetTax to help you reclaim these refunds.

Sincerely,

A handwritten signature in black ink that reads "J. Albright". The signature is fluid and cursive, with a long horizontal line extending from the end.
