

## Value Added Consumable Materials for Composite Manufacturing

**JAMAK** Fabrication—serving the wind-power, aircraft/aerospace and marine markets for over 30 years. Our custom designed products can provide unique solutions for projects demanding optimum performance in an environmentally conscious world.

**JAMAK** Fabrication Inc provides high quality molded and extruded rubber products through our domestic and international operations. Vacuum ring assemblies and extruded profiles – cant strips, vacuum mold seals.

- High temperature silicone profiles (+ 500F)
- Excellent for use in autoclave processing
- Dense & sponge
- Bonded / spliced corners & molded corners
- Various material options are available
- EPDM and other organic rubber
- Color matching ID available
- Extrusion & transfer, injection, compression molding
- Infusion line seals

**JAMAK** is a leader in providing precision made rubber sealing solutions. Throughout our global operations, our focus is on creating value for our customers by providing outstanding technical service and manufacturing options. From designing products and materials engineering, to customer support, we demonstrate our commitment to excellence in the quality and performance of the products we sell.

## Design and Material Development

Unique to the industry is JAMAK's heavy emphasis on material research and development. Our technical support staff provides the resources for designing, formulating and developing products and test methods. Our engineering design software allows us to offer design and tooling alternatives quickly and cost effectively.

## Company Information

- Over 40 years experience in silicone formulation and product manufacturing
- Many first to market innovations and patented products
- Over 350,000 sq. ft. of global manufacturing capacity in the US, Europe and Asia.
- On-site Center for Design Development and Testing

By partnering with a solutions-provider like JAMAK Manufacturing, you receive engineering support and materials development to meet the toughest requirements for your projects.

- High Temperature Silicone Profiles
- Dual Durometer Seals
- Cant Strip Profiles
- Various Compound Solutions (Silicone, Thermoplastics, EPDM, Urethane)
- HCR, LSR and Sponge capability

*Weatherford, Texas facility just west of the Dallas / Fort Worth Metroplex*
