

Esteem Girls Freebies

We wish that you can join us! However, we know that we can not accommodate everyone. Here's some freebies for you to enjoy!

Bacteria in the Cafeteria!

This game is about different kinds of microbes; some are good and some are bad.

It's time to learn which bacteria from daily life is helpful to people and which bacteria is harmful. Open the following

link on the computer. Explore the cafeteria and make notes on the sheet provided.

<https://www.amnh.org/explore/ology/microbiology/bacteria-in-the-cafeteria-game>

Label me Activity!

See the attached cards for virus and bacteria (see appendix A). Ask two students to volunteer. Stand up and label one student as a virus and the other as bacteria. Use tape and stick on different characteristics of viruses and bacteria (see appendix B) on the student.

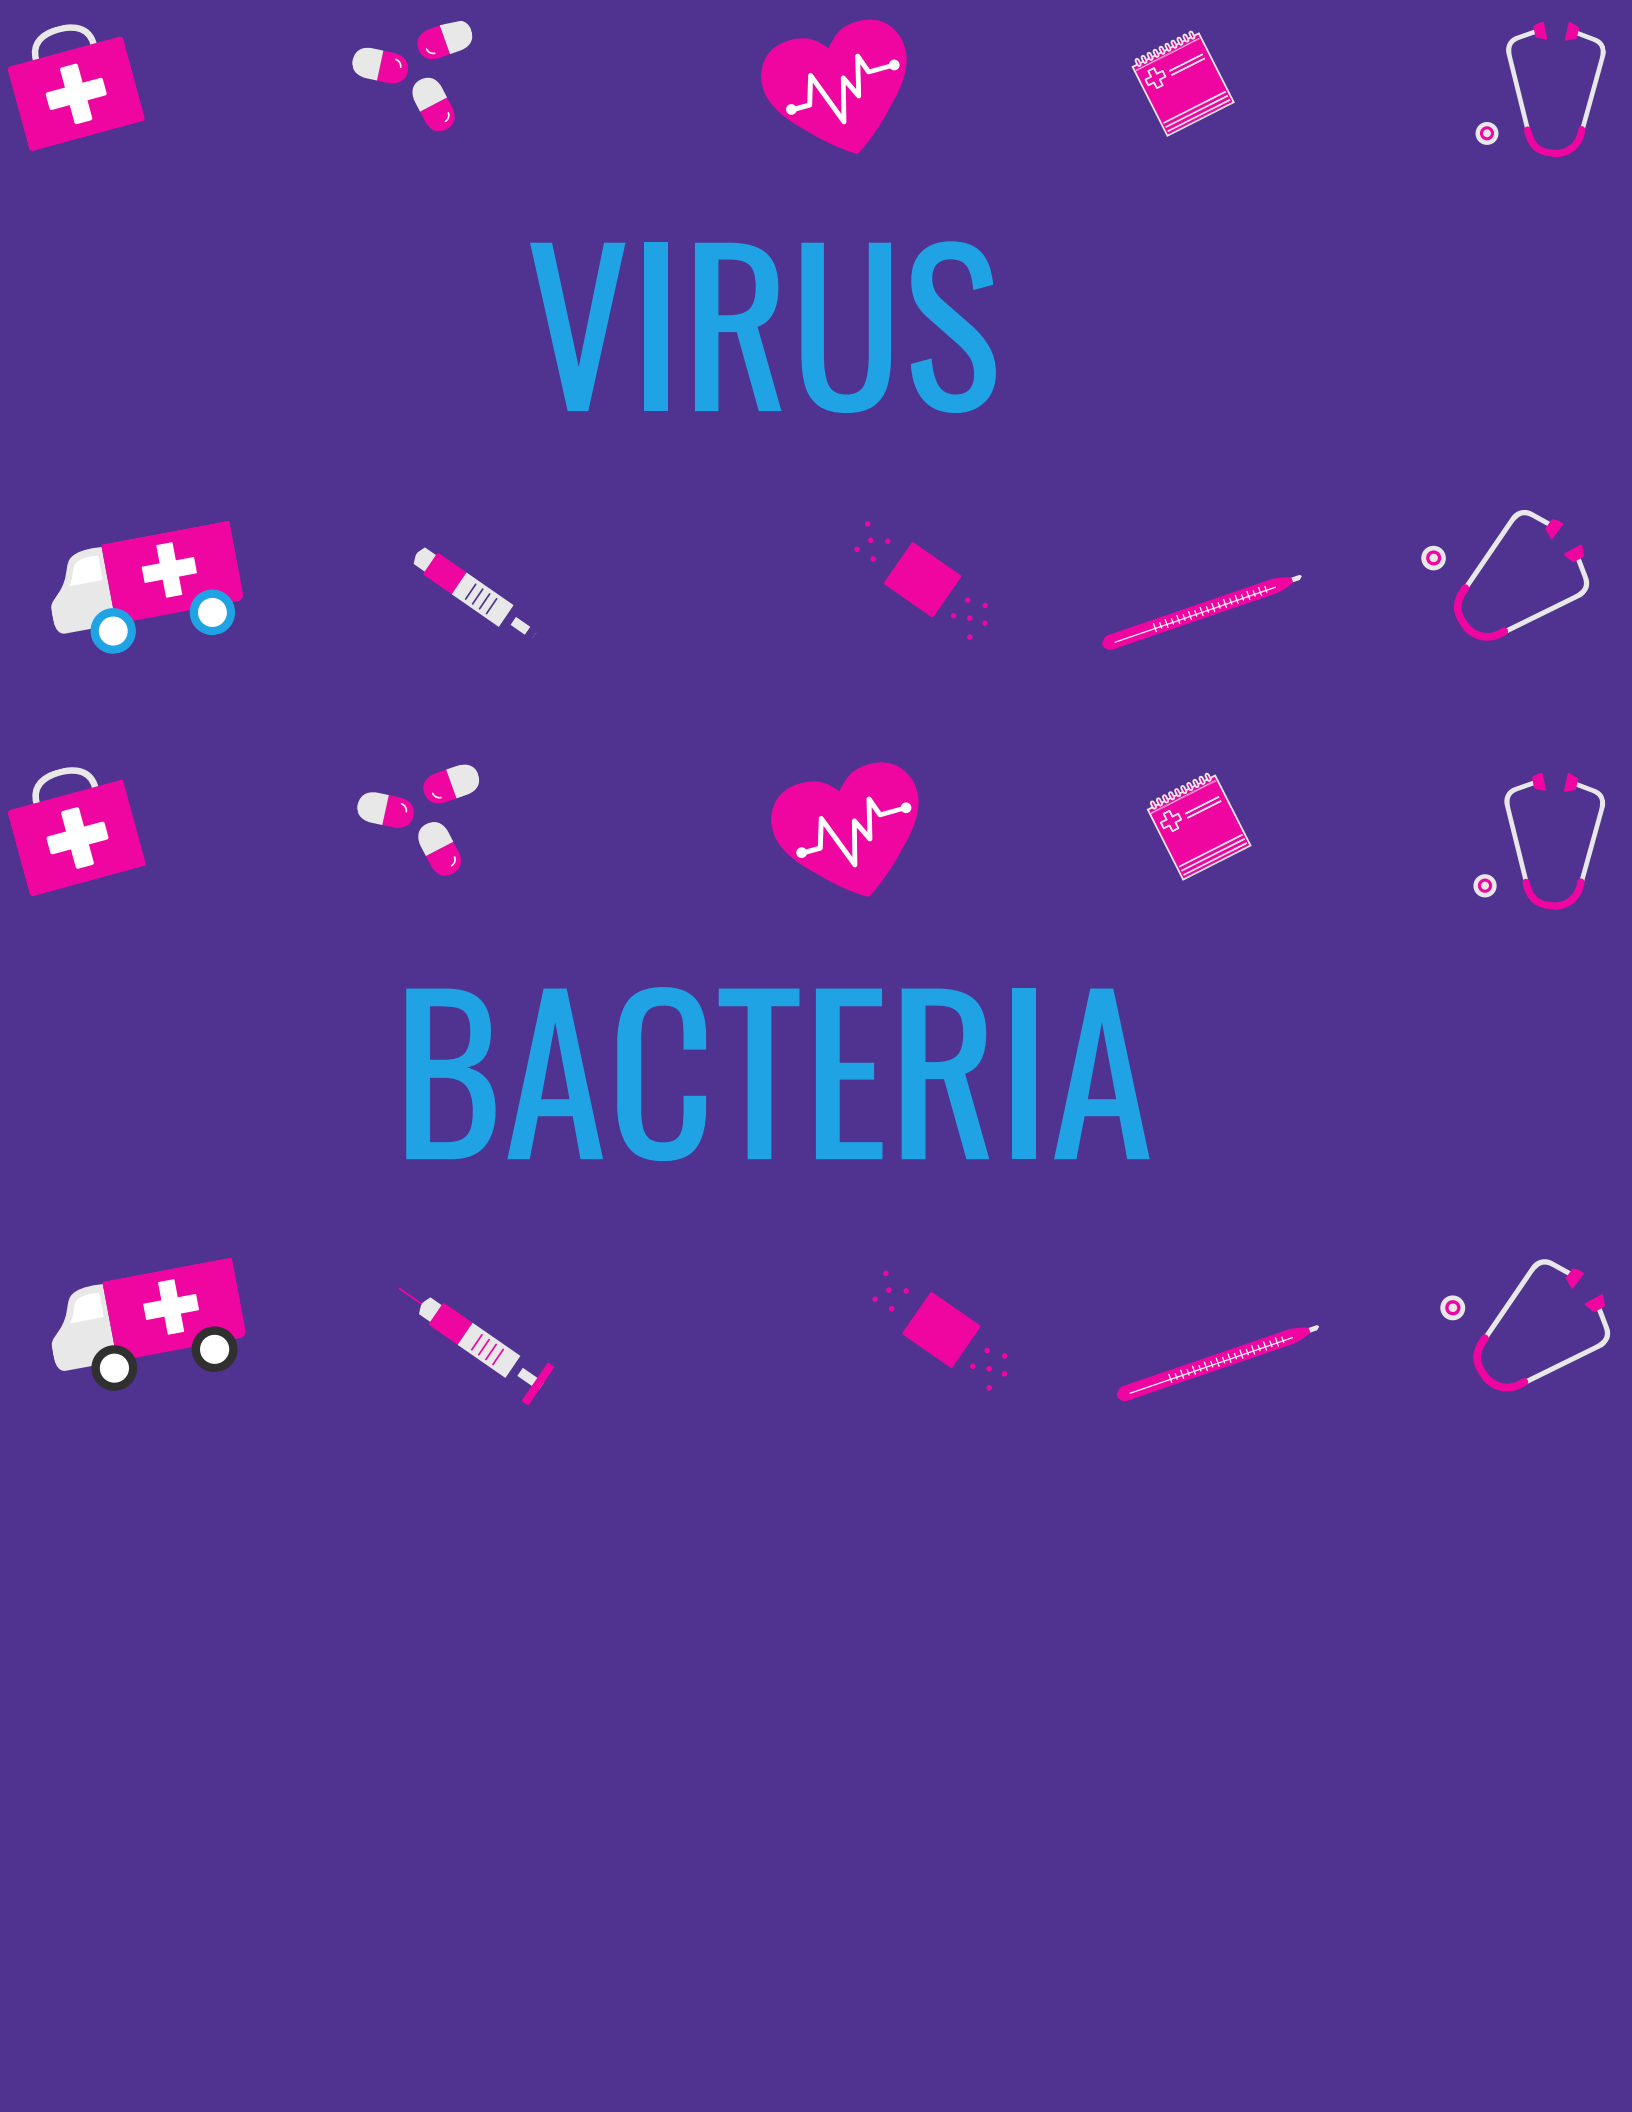

BACTERIA IN THE CAFETERIA

Student's Name: _____

Write the name of the item(s) from the kitchen.

How does this bacteria help/harm people?

VIRUS

BACTERIA

NEED FOOD, WATER AND A SUITABLE TEMPERATURE IN WHICH TO LIVE

HELP IN THE REDUCTION OF PLANT AND ANIMAL WASTE TO SOIL NUTRIENTS

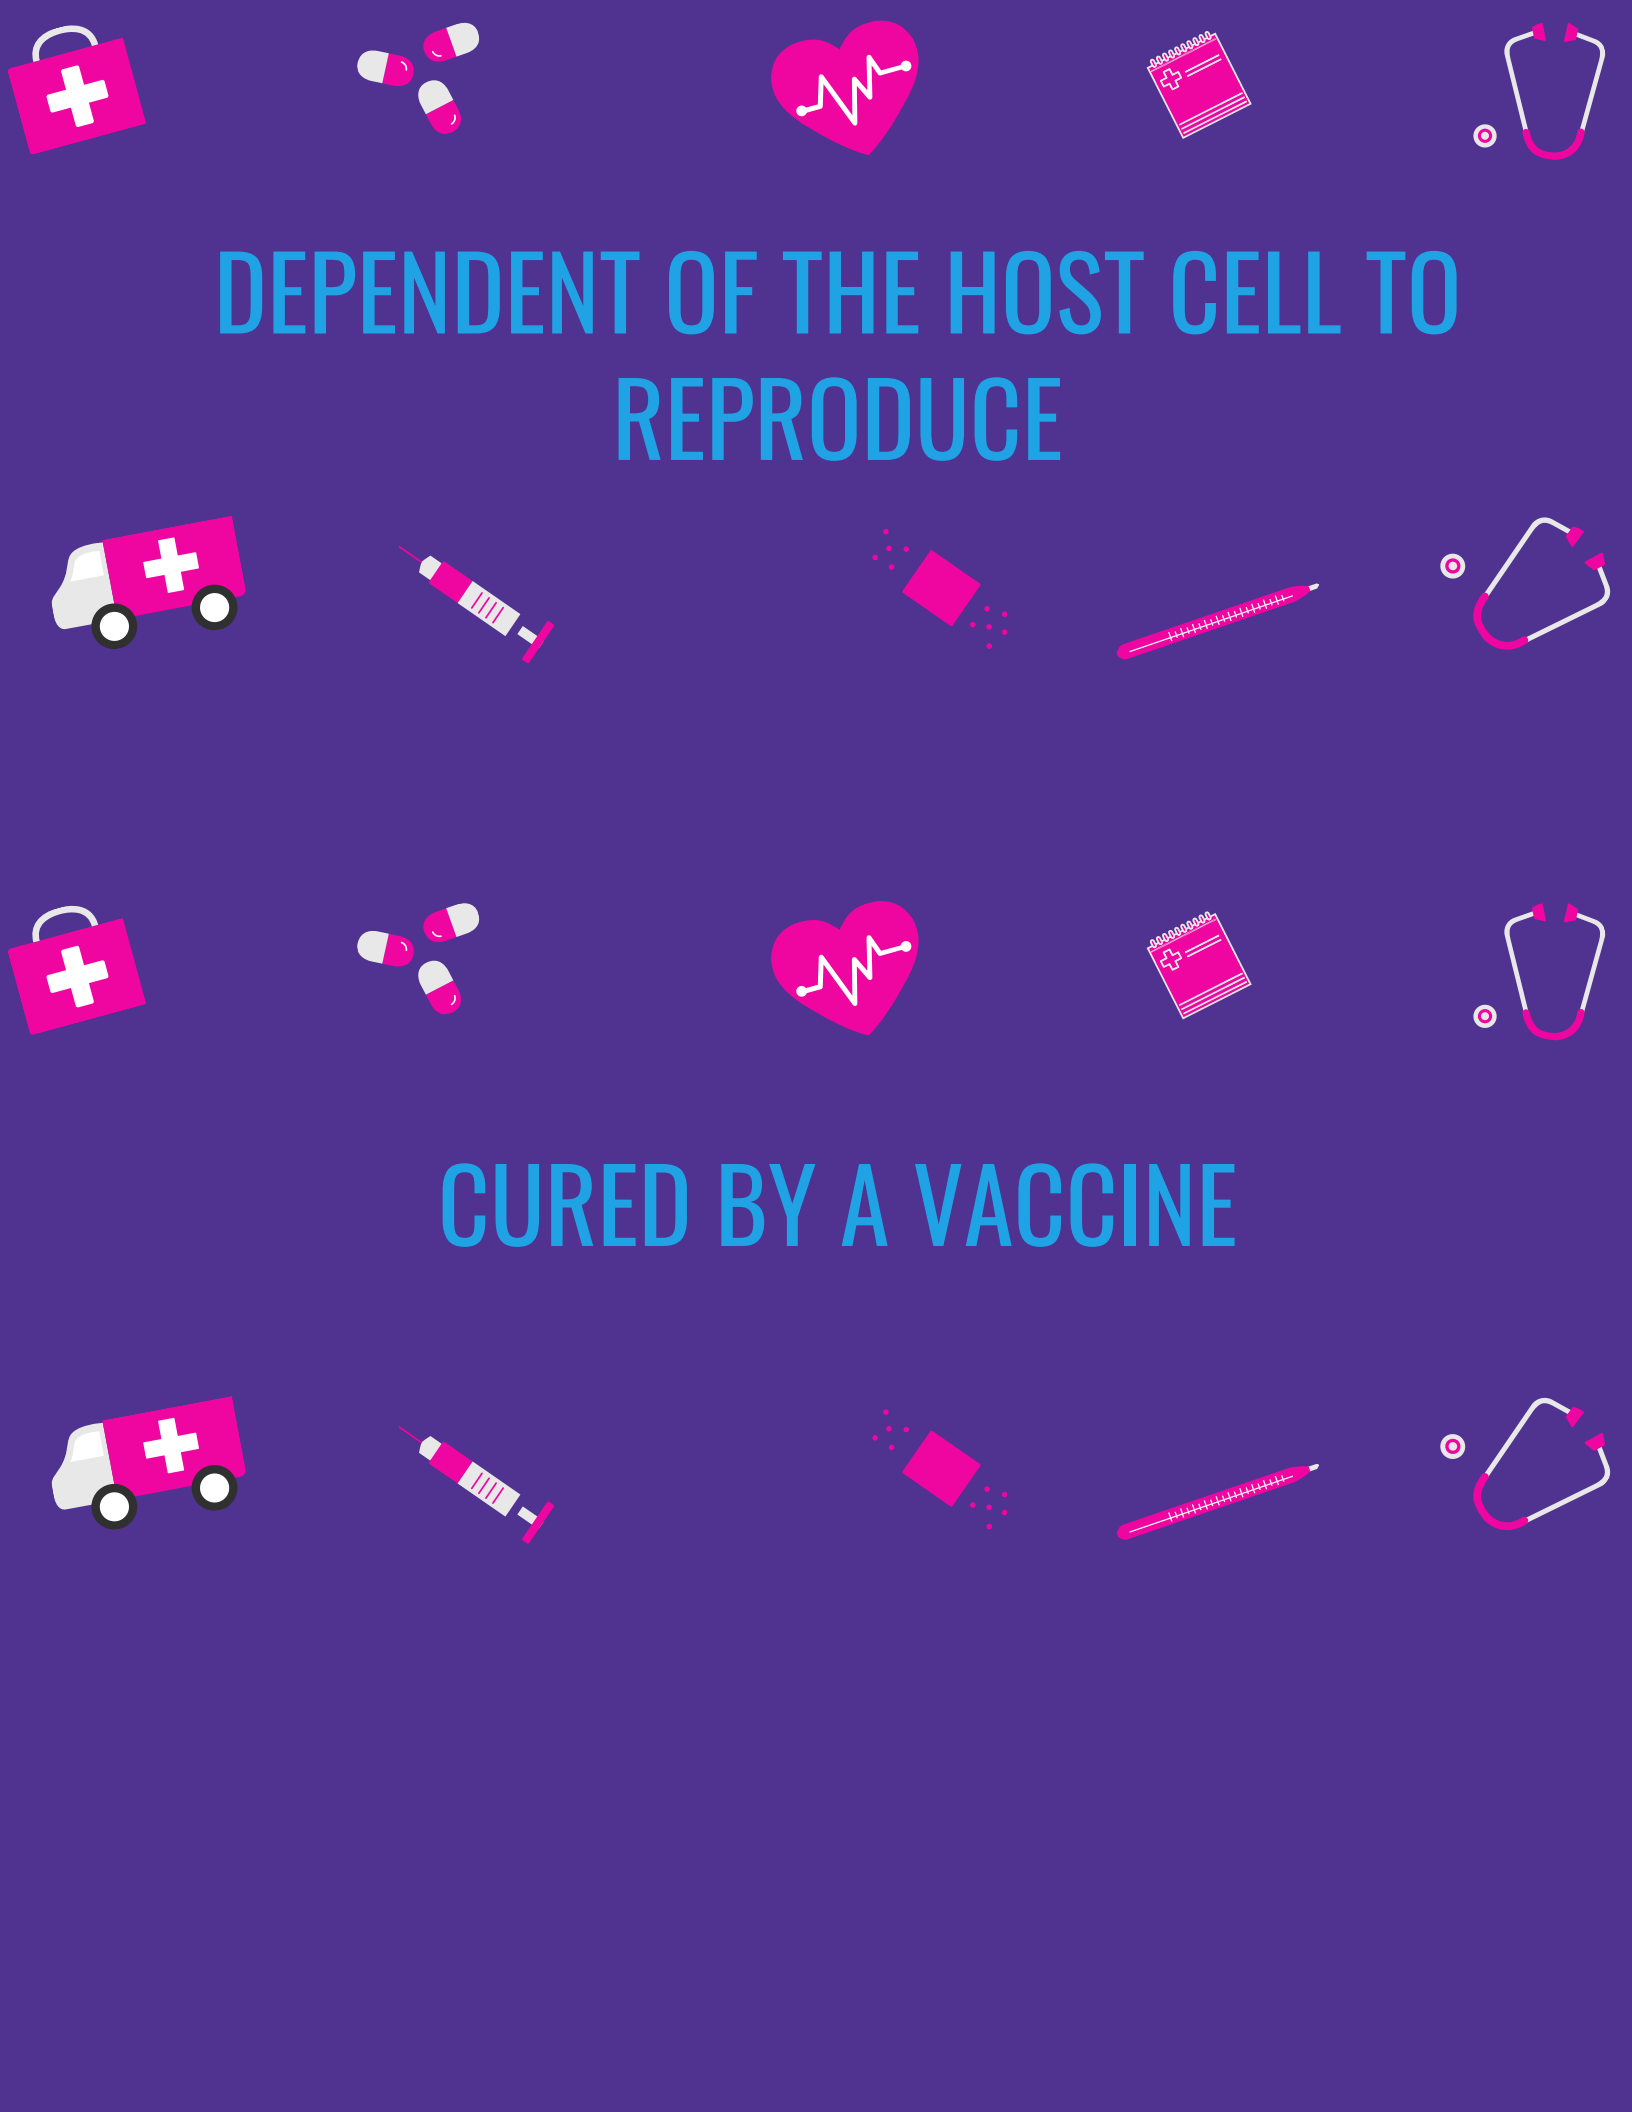

SMALLEST ORGANISMS THAT ARE ALIVE

NON-LIVING ORGANISM

DEPENDENT OF THE HOST CELL TO REPRODUCE

CURED BY A VACCINE

SINGLE CELLED ORGANISM
