**Pre purchase propane for \$2.089 per gallon.**

Pre bought gallons are not refundable for the duration of the contract. If you have remaining gallons after Mar. 31st, 2023, you will be refunded for those gallons at \$2.089 per gallon. Once pre-bought gallons are exhausted your price automatically goes to the cap price until March 31st, 2023, with no extra fees. To participate in the Pre-Buy program, you must have used a minimum of 500 gallons last heating season and pre-purchase at least 500 gallons for the 2022-2023 season. To select this option please sign your name, fill out the form below and return with payment.

**WINTER PROPANE DELIVERY ALERT**

Tri-Gas will not send a propane truck up an un-plowed driveway or un-sanded incline even if you have pre-bought and are on keepfull. Our propane trucks will need to navigate your driveway to make a delivery – which is impossible if the way is blocked by snow and ice. Keeping your driveway plowed (and sanded, if it is steep) will ensure that we can access your propane tank. Please also remember that our delivery trucks are wider than standard cars, so shoveling just a narrow path may not be adequate. If our delivery person is unable to navigate your driveway, we will not be able to fill your tank, which could result in a special delivery fee. If you will be away for the winter, please consider having your driveway & tank checked regularly.
