Three Phase Extension Leads

These standard duty extension leads are recommended for indoor use or for short duration outdoor applications where the ambient temperature is below 40°C.

Applications

Wet and oily environments, Construction site leads, Submersible Pumps Flexible connections to motors, generators, compressors e.g. Drills & pumps Saws & log splitters, Cranes & hoists and held drills, Grinders & welders, Agricultural equipment, Generators, 3 phase Vacuums & floor grinders.

The extension lead is good for dry, damp and wet environments; areas of stress caused by vibration or impact they are resistant to abrasion, exposure to radiated heat and chemical contamination.

It is that recommended for applications where the lead is continually dragged behind a machine e.g. floor polishers, floor grinders ECT. The heavy duty leads are used.

Maximum Ambient temperature: 40°C
