SPECIALISING

Particular **emphasis on juveniles**, and on **3yo maiden races**.
This is where I have had the best results over the past five years.

Notebook horses: List of around 50 notebook horses taken down last year, to keep an eye on in 2014, sent out with confirmation of your subscription (included in 10 days plus subscribers only). Weekly updates to Notebook list sent out via email, with new horses added, and horses taken off the list.

PDF-format list of Notebook horses at start of every week (ideal for iPad users)

Email runner alerts Emails sent out when our Notebook horses are entered to run.

Value bet alerts

Email / text messages; value bets spotted; ante-post bets plus raceday bets spotted and recommended, also value bets for racecourses not covered by the paddock service.

NEW

Email report after each raceday: Horses noted in the paddock as **unfit**, horses noted to have been run over the **wrong distance**, **badly ridden**, or in any other way seen not to be given much of a chance in the race. Info like "bled" or "lame after race" also included.

STABELL'S NEW PREMIER SERVICE

NEW

Horse / rider / trainer info. Email your questions regarding a particular horse, jockey, trainer, or a particular course for that matter, and I will try to give a meaningful reply within 48 hours – communicating and exchanging ideas helps us get the best overview.
