

DO YOU FEEL COMPLETELY DRAINED AFTER A HOT DAY IN THE SUN?

"I know the feeling, since I was in construction work for years, and spent many a day in the hot blistering sun.

*At the end of the day, I had no energy left to cut the lawn, play with my kids, etc. Then I started using a **pure hydration mineral drink from Shaklee Corporation, called PERFORMANCE.** My wife would fill my thermos with it each day, and throughout the day I experienced increased stamina and sustained energy output, and at the end of the day, my fatigue was dramatically reduced.*

PERFORMANCE provides more energy and more electrolytes, lost through perspiration, than the leading hydration drink. It contains a proprietary electrolyte blend, plus a unique mix of carbohydrates GUARANTEED TO DELIVER INSTANT AND SUSTAINED ENERGY.

When I see you working in the hot sun, I feel you deserve to know about this re-energizing drink. If you are interested, contact me ...
