- 2. Determine your wedding style by deciding whether you want a large or small wedding, a formal or informal reception.
- 3. When planning a large wedding, you might want to consider hiring a wedding consultant to help you out. It will be worth your time!
- 4. Who will contribute to the overall cost? Determine how much money is available by meeting with those who will contribute to the cost of expenses.
- 5. After you've decided on a date, reserve the locations for the ceremony and reception. A deposit is usually required.
- 6. Choose your maid/matron of honor, bridesmaids, best man, groomsmen, and other members of your wedding party.

On the Day - How To Create A Wedding Day Itinerary

Your itinerary will assist you, your Bridal Party, and Family in determining where they need to be and when they need to be there. Begin with broad swaths of time from the end of the reception; once the broad swaths of time are established, you can fill in the details. The first thing you must do is determine the end time of the reception. When are you required to exit the reception hall? Once you've gathered that information, you'll need to allow time for clear up, unless you've made arrangements to do so the following day.

Allow at least two hours for deconstruction, whether you are doing it yourself or hiring someone to do it for you. If you're in a hotel's reception hall, the party is typically cut off at midnight to allow their staff to clean up and your group to tear down. The Hotel is not obligated to remove your decor; this is your responsibility. You will need to return all rentals to their original boxes. Linens do not need to be folded; they are typically placed in laundry-style bags to be returned.

Timeline Quide

CAUTION: Ensure that you understand how linens and other rental items should be returned. Are they going to collect them or are you going to be responsible for returning them? Additionally, if they must sit for a day before being returned to the rental location, store them in a cool, dry location. If you store them in the garage following the large outdoor tent wedding, where the temperature is 80 degrees and the humidity is 90 percent, they will mildew and you may be held liable for the additional cleaning fees!

You have four hours of open bar. Even if you have a limited bar, this is the general amount of time, one hour of cocktails, and then the bar will close for an hour before reopening for three more hours. Assuming you end the night at 12 a.m. minus three hours, you arrive at 9 p.m. when the dance floor is opened.

Allow an hour to an hour and a half for dinner and cake. This will also vary according to the number of guests and whether the meal is plated or buffet. Buffet service will take slightly longer; inquire with your caterer. They'll have a good idea of their capacity for feeding people. Therefore, for the sake of argument, it is a plated dinner, and we allow them an hour for dinner and cake.

This brings us to 7:30 PM, when dinner will begin. This provides some cushioning. 7:30 p.m. minus time for guests to enter and be seated, your Bridal Party Introduction and "For the First Time Ever, We Introduce Mr. and Mrs...", your grand entrance into the dining room, and the hour of cocktails. 7:30 minus one and a half hours equals 6 p.m. Are you beginning to see how to accomplish this? Cocktail hour begins at 6 p.m.

The ceremony will take place in the small town where you grew up, approximately 20 minutes from the reception. You must allow sufficient time for your guests to travel from the ceremony to the reception. Uncle Bob is a slow driver; allow them a half-hour to drive. Without a doubt, after the ceremony, people will mingle, and you will have them throw rose petals at you as you exit the Church.

Timeline Guide

Thirty minutes will be allotted for the ceremony (You know this because you asked the Minister how long it will take.) 6 p.m. minus thirty minutes for driving, 5:30 p.m. minus a half hour for socializing, taking pictures, and throwing petals, and you're at 5 p.m. minus thirty minutes for the ceremony, Ta Da, 4:30 p.m. ceremony start time.

Create a list of everything that needs to be accomplished that day:

Hair, makeup, and pictures of you getting dressed (Are you getting dressed at home or at the ceremony location?) Are you planning to see each other prior to the ceremony? I will admit that some girls are adamant about this, but seeing each other prior to the ceremony makes life so much easier.

You can complete all of your photographs. Additionally, the first time you see each other can be quite moving. This moment is entirely yours! You will have time to converse and express your feelings. It's likely to be the final private moment of the day.

lowbudgetwedding.network

Communicate with your photographer; they will have a timeline for when they will complete tasks; incorporate his timeline into yours.

Typically, a 4:30 wedding will begin photographs at 1 PM, which means you must be dressed and ready to go at that time. Family members will need to know when they are expected to arrive for photographs. 3 p.m. should suffice. Appointments for hair and makeup should be scheduled with sufficient time to ensure that EVERYONE is completed and returned on time.

Consult your stylist for an estimate of how long things will take and go from there.

Now that you have the tools, you can begin scheduling.
