PRESIDENT'S REPORT

Hi folks,

Well March is upon us and with it the Easter Roundup which is almost here, with only two weeks to go.

It will be fast and furious for the next couple of weeks leading up to the Event, which is our clubs Showcase event. The songwriters nominations have closed with 22 entries and the nominations for the other sections starting to fill and will close at the end of this week. It is a shame that some songs for the songwriters section

missed the deadline because of incompatibility of systems with data transfer and we are sorry that this has occurred and I apologize to those that this affected.

The big day for setting up is Thursday the 24th of March at the Bundaberg Recreational Precinct at the big indoor pavilion via Kendall's Rd. We would appreciate any volunteers to help with the many jobs of putting up stages, fencing, dressing rooms and the many other jobs that need to be done that day from about 8am.

Your help would be greatly appreciated, please contact Rod or Sandy for details.

Last weeks playout went well and our band and staff did a great job with new members and friends from Hervey bay in attendance. We hope everyone had a good time.

Okay, we will hopefully see as many of you as we can at the Roundup, stay well and stay safe.

A handwritten signature in black ink, appearing to read 'Lawry Bucholz'.

TIPS ON STAGE PERFORMANCE FOR SINGERS

- **Move around on stage:** Most audiences find an artist moving around on stage more engaging than those who stand static throughout. Coming to the front of the stage also helps to engage and connect with your audience. It doesn't mean you have to use every inch of the stage, but you don't want to be anchored to the floor, so make sure you move around.
- **Body language:** Your body language gives the audience an idea of how you're feeling when you're on stage and conveys the emotion of the song. Making eye contact with the audience helps them to connect with you, it shows you're confident and again adds to the interpretation of the song. Standing tall and having good posture not only helps your performance, it makes you look professional. Body language is a main tool in expressing the emotion of the song so making sure your movement reflects this is key, it will take time to perfect but essential to start incorporating into your performance.

HOT TIP: Look at YouTube videos of artists you are influenced by and watch how they perform with their mannerisms and look at how they convey emotion in their performance. It may just be an act, but that's what you inspire to be!
