- *****

**THE BRIGHT SPOT: Practice isn't the thing you do once you're good.
It's the thing you do that makes you good.**

STUDENT OF THE WEEK: BAYLOR BROWNSBERGER (GRADE 7)

FAVORITE SCHOOL LUNCH: Beef Nachos

BEST GIFT EVER RECEIVED: 12-gauge shotgun

WHAT MAKES A GOOD FRIEND: Someone with good humor and leadership

IF I RAN THE SCHOOL: I would let everyone do what they want, including eating as much food as they want.

I am proud to nominate Baylor Brownsberger for Student of the Week. Baylor has been a welcome addition to the 7th and 8th grade class. She shows respect and kindness to others. She takes great pride in her schoolwork by always doing her best, staying organized, and turning in very neat work. Keep up the good work, Baylor!
- Mr. Ewing

BELLS & WHISTLES to the girls Jr. High Cross Country team for placing first at the Clinton Cross Country meet. - Mrs. Warmbrodt

Preschool: It is hard to believe that we are ending September this week and beginning October! October is one of my favorite months, because there are so many fun things going on! This week we will wrap up talking about apples and the letter "A". We will do a few more fall things to add to our walls. Don't forget PTO/student performance is Thursday night. The students have been working super hard! Please have them wear red, white and blue. Please bring them to the Preschool classroom at 6:50 p.m. We will meet you in the gym to sing at 7! Can't wait to see you there! -Miss Stacie

Kind: This week's theme is Seasons. We will be able to identify and state how a tree changes in every season. Our vocabulary words this week are bare, cozy, bud, collect, and chilly. The sounds we are focusing on are /c k/, /e/, and /h/. Please continue working on flashcards, rhyming, and pointing out patterns. Thank you! - Mrs. Stewart

1st/2nd: I hope everyone enjoyed their long weekend. Even though it's a short week, we have a busy week. First grade will continue working on learning their sight words this week and understanding spelling patterns. They will also begin a science unit on how plants and animals live. Second grade will hopefully finish their unit on animals with and without backbones. They will also begin cursive this week. Both grades still have AR tests due on October 7th. Please be sure students are reading at home and preparing for their AR tests. Have a great week. -Mrs. Hird

3rd/4th: I hope everyone had the opportunity to enjoy the long weekend. This week we will be finishing Stanford testing. Right now in Language Arts, we have been learning about sentences and how to structure them correctly. We will continue this week. We will have a spelling test on Friday. Both classes will be pushing forward in math. I have been very pleased with scores in both classes on their math tests. In Science, both classes will start chapter 3 soon. Third grade will need to know the life cycle of a frog. Fourth grade will need to know the life cycle of a plant. Every student should have a

study guide for these life cycles. In Social Studies, we will begin week 4 in our Missouri Studies Weekly. - Mrs. Cooper

5th/6th: I hope everyone enjoyed the long weekend! 5th and 6th graders will finish Stanford testing today and Wed. Spelling tests will be on Friday this week. In Science, 5th graders will be looking at plant and animal cells and 6th grade will have a quiz tomorrow over Ch. 5 L. 1 and Ch. 6 L. 1. In Reading, students will be going over some background information over our new Lit. Circle book "The Egypt Game". In Social Studies, 5th grade will have to recite The Preamble of the Constitution on Wed. and 6th grade will have a test over the first 13 Amendments on Friday.

7th/8th Grade Comm. Arts: Our goal is to have Patriot's Pen essays finished by Friday! Have a great week and see you at the program on Thursday! -Mrs. Foster

5/6 Math: In fifth grade, students are working on the nature of division, equal-groups story problems, and the beginnings of the nature of fractions. In sixth grade, students are looking at part-whole relationships, ratios, and operations with fractions. Watch for mid-quarter grades this week. **Tests This Week: 5th Math: Thursday**

7/8: In science, 7th grade continues with their unit on the types of interactions of matter. Eighth grade will be starting a unit on the relationship among forces, motion, and energy. In grammar, both 7th and 8th grade will be working on a unit on nouns. This will include types of nouns, the spelling of plural nouns, and their function in various types of sentences. Please watch for mid-quarter grades coming out later this week.

Tests This Week: 7th Science: Wednesday, 7th and 8th Social Studies: Friday, Algebra Test: Friday -Mr. Ewing

MUSIC: The performance is finally here! K-8, please arrive at 6:50 and sit in your seat in the gym. Wear red, white and blue, if possible! - Miss Stacie

CHARACTER ED: RESPECT – to act in a way which shows that you are aware of someone’s rights and wishes; to treat or deal with something valuable in a proper way.

We will finish talking about respect this week! Our projects will be coming home soon. – Miss Stacie

Please remember to turn in your **Food Fair receipts** and **Best Choice labels**. We earn money when we submit them. Use the **Box Tops app** to scan your receipts, so Hudson can earn money for items that count in this program.

School Store is a safe and easy way for us to raise funds for school use. Students can earn prizes too. **School Store** is 100% online so there is no face-to-face selling, handling money, or delivering products. To participate, send form emails inviting family, friends and co-workers to support your child. Return the envelope with the Student Prize Code to school for your child to get their fun participation prize. More prizes will be awarded when goals are reached. **There is no deadline. It will last all year.**

HALLOWEEN PARTY HELPERS:

If it is not convenient to meet with the teacher at this time, please call (660) 476-5467 to re-schedule.

Tap out sounds of science

Experiencing science with their senses can boost students' interest in it. Here's a teacher-recommended way to help your child *hear* some science:

- 1. Find a few long, flat surfaces** around your home—a wall, a railing, the floor. Ask your child to guess which material will conduct sound the best.
- 2. Have her put** her ear on one surface.
- 3. Tap a coin steadily** on the surface as you move farther away from your child.
- 4. Repeat** with the other surfaces.

Did you get farther apart on one surface than another before the tapping sound grew faint? Which one transmitted sound best?
