

Free 10-Week Training

Public Safety Smart Technology (PSST!)

PSST! Training is an 84-hour training program in smart home and commercial automation solutions including camera installation, home computer networking, home energy efficiency technology, and remote monitoring

PSST! Training will include:

- Hands-on training + extensive lab work
- Intro to basic IP networking + Cisco
- OSHA 10-hour Certification
- Social media tools for public safety
- Surveillance services and technology
- Business training for subcontracting
- Neighborhood crime prevention

All trainees must pass background check

October 7 - December 20

Wednesdays (6-9pm) and Saturdays (9am-1pm), additional days will vary based on trainee availability

For more information and to complete the pre-application, visit www.crtkc.org

For questions contact LaDanity Timmons at 816-559-7077

PSST! is a collaboration of the Community Resource Team (CRT) and Connecting for Good and is made possible by the U.S. Department of Justice Byrne Criminal Justice Innovation grant.
