

Amelia-Nottoway Technical Center

Friday News 9/4/2020

Our name, ANTC, stands for *Amelia-Nottoway Technical Center* and emphasizes our expectation that our students will graduate prepared to find career success in their lives beyond high school.

The ANTC staff has been working hard to prepare for the return of our students on September 8, 2020.

Our teachers are looking forward to working with students, and parents to assure that each of our students find a clear path toward career success. They intend to work tirelessly to accelerate student achievement and growth through a student-centered educational environment.
