

Natural Law and the Current Human Condition

1. Introduction:
2. How many of you feel that the current human condition and life on earth is tolerable just the way that it is right now? Why does this condition exist. We will be examining the root cause vs. the symptoms.
3. You will not be seeing or hearing anything “new” here today. “There is nothing new under the sun”. This is a “tapestry” and requires prerequisite knowledge in order to reach “understanding”. This series of lectures is about Natural Law: The REAL “Law of Attraction” and how to apply it in your life.
4. TEACHABILITY. Keep an open mind. Bell curve illustration. Arrogant, Cynical, Skeptical- (teacher/student) vs. Trusting, Gullible, Naïve.
5. REQUIREMENTS AND THE ROLE OF KNOWLEDGE. People say they want certain conditions to be present for themselves and humanity as a whole. Specific REQUIREMENTS exist in order for human beings to obtain those conditions. If the requirements for obtaining those conditions are not met, those conditions DO NOT just “magically” manifest.
6. THE ROLE OF KNOWLEDGE. Since humans as a species do NOT already have the things they say they want, it follows logically that the KNOWLEDGE of the requirements to obtaining the things they say they want are either absent, or if present, that knowledge must be willfully being ignored. As long as this knowledge remains hidden or ignored, the manifestation of the desired conditions is IMPOSSIBLE. Nescience vs. Ignorance.
7. OCCULT KNOWLEDGE. OCCULT: from the Latin adjective Occultus: “Hidden” which comes from the Latin verb occultare: “to hide, to conceal, to keep secret. Pyramid example (Knowledge held by a few vs. the ignorant masses).
8. What are they hiding? Occult knowledge constitutes both the knowledge of HUMAN CONSCIOUSNESS and how it operates AND the knowledge of NATURAL LAW, the unseen UNIVERSAL SPIRITUAL LAWS which govern the consequences of human behavior. This is the most deeply occulted information on earth because its understanding would level the playing field of our entrenched control systems.
9. WHY? What is the ROOT CAUSE? Let’s talk about Problem solving. Main steps: 1. Recognize there is a problem. FEAR based DENIAL of the problem must be acknowledged and conquered. 2. Medical example: Recognize that symptoms are merely effects of the underlying causes. Instead of treating symptoms, make an accurate DIAGNOSIS of the CAUSES of the problem. 3.

Through the knowledge acquired via an accurate diagnosis, take the required ACTION necessary to rectify the causal factors which led to the problem.

10. DIAGNOSIS; From the Greek preposition “dia” -”by way of” and the Greek noun GNOSIS “knowledge”. BY WAY OF KNOWLEDGE. Knowledge of the self and the universe.
11. TRUTH VS. PERCEPTION. TRUTH IS OBJECTIVE, meaning it is not based on human perceptions (capable of wavering and distortion). TRUTH is simply “That which is”. It is that which has occurred in the past and is occurring in the present moment. Our goal is to align ourselves with TRUTH. Sine wave illustration.
12. Solipsism: From the Latin adjective solus: “alone” and the Latin pronoun ipse: “self”. The ideology that objective truth cannot be known and that only one’s own mind is sure to exist. Solipsists contend that knowledge of anything outside of one’s own mind is unsure and nothing about the universe and the EXTERNAL world can actually be known.

“I’ve come to realize that the biggest problem anywhere in the world is that people’s perceptions of reality are compulsively filtered through the screening mesh of WHAT THEY WANT AND DO NOT WANT TO BE TRUE”. -Travis Walton
13. NATURAL LAW. Let’s break this down. NATURAL: Inherent in nature, reality, and truth; NOT man-made or caused by humankind. LAW: an existing condition which is binding and immutable (cannot be changed).

Working definition: **Universal, non-man-made, binding and immutable conditions that govern the consequences of human behavior. Natural Law is a body of UNIVERSAL SPIRITUAL LAWS which act as the governing dynamics of consciousness. Our constitution was based upon the principles of NATURAL LAW.**

Natural Law	Man's law
Based Upon Principles & Truth (Inherent To Creation)	Based Upon Dogmatic Beliefs (Constructs Of Mind)
Harmonized with, due to Knowledge & Understanding	Complied with, due to Fear of Punishment
Universal; exists and applies anywhere in the Universe regardless of location	Differs with location based upon the whim of legislators (Moral Relativism)
Eternal and Immutable; exists and applies for as long as the Universe exists, and cannot be changed	Changes with time based upon the whim of legislators (Moral Relativism)

14. Discovery vs. Belief

Human belief is completely irrelevant when it comes to Natural Law, just as it is *irrelevant* to any other laws of nature, such as gravity, inertia, momentum, thermodynamics, or electromagnetism. Similar to such other laws of nature, the workings of Natural Law require NO belief in order for the m to be *discovered* and *known*.

“There are two ways to be fooled. One is to believe what is not true: the other is to refuse to accept what is true.” – Soren Kierkegard

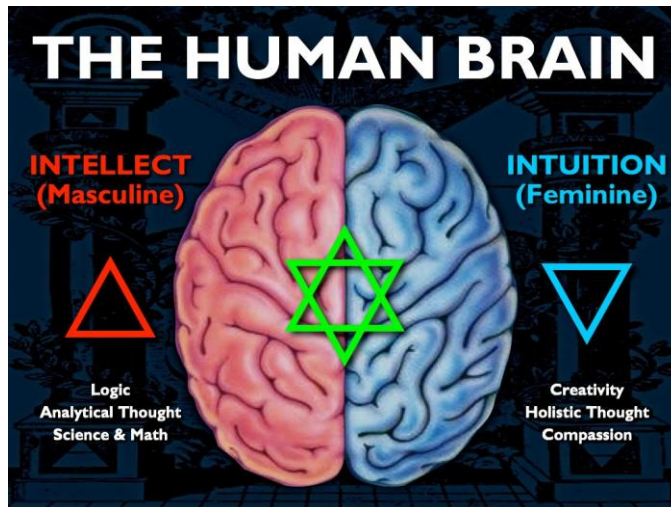

15. Consciousness and the Brain

Consciousness- The ability of a being to recognize patterns and meaning with respect to events taking place, both within oneself and in the realm in which the self exists and operates.

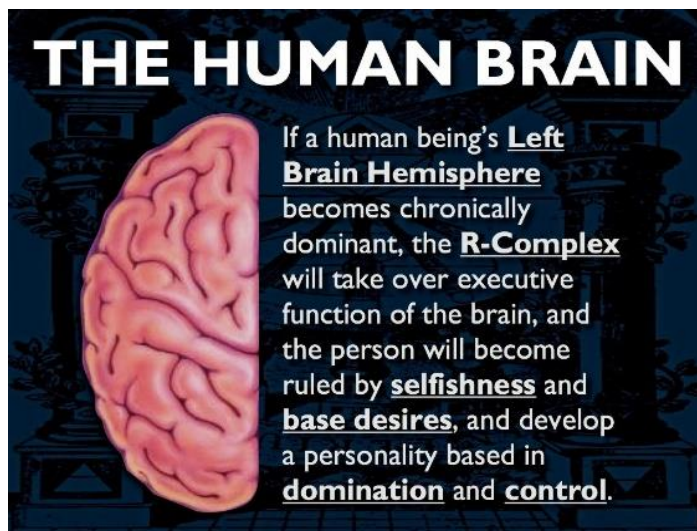

Expressions of Consciousness- Thoughts (Mind), Emotions (Spirit), Actions (Body).

16. Brain Structure and Behavior- Brain health plays a critical role in human behavior, so it is extremely important for human beings to become familiar with the brain's basic structure and function. Three main complexes comprise the human brain:

- The R-complex (Reptilian brain) which facilitates basic survival functions
- The Limbic System (Mammalian brain) which facilitates human emotion
- The Neocortex (human Brain) which facilitates higher thought functions and consciousness

17. The Neocortex of the brain has two hemispheres. The left brain largely facilitates logical and scientific thought, while the right brain facilitates creativity and compassion. When both hemispheres are in balance, the Neocortex acts in its proper role as the executive command center of the human brain and **THUS** intelligence (Intellect + Creativity) is born.

THE HUMAN BRAIN

If a human being's **Right Brain Hemisphere** becomes chronically dominant, the **Limbic System** will take over executive function of the brain, and the person will become ruled by their own emotions and develop a personality based in **submissiveness** and **naiveté**.

The Schism

MENTAL SCHISM

INTELLECT (Masculine)

Can lead to:

- Rigid Skepticism
- Scientism
- Atheism
- Solipsism
- Moral Relativism
- Social Darwinism
- Eugenics
- Authoritarianism

if this part of the brain is chronically dominant.

MIND CONTROL

INTUITION (Feminine)

Can lead to:

- Naiveté
- Blind Belief
- Religious Extremism
- Solipsism
- Unworthiness
- Self-Loathing
- Order-Follower
- Willing Slave

if this part of the brain is chronically dominant.

Nature Vs. Nurture

Human Nature: Good or Evil. Human nature is neither good nor inherently evil. Instead, we should consider the operating conditions in which human beings exist, which influences behavior to a great extent, thus creating the current human condition.

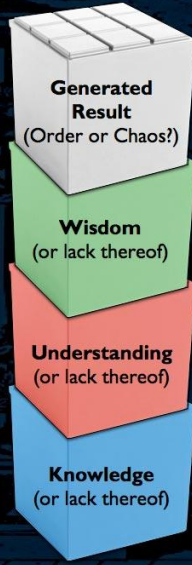

Human Beings are Programmable!

HUMAN CONDITION

Human beings are **programmable**, much like computers. Like a computer, if a human being has a bad “file-system format” (conditions during a child’s formative years), a bad “operating system” (Culture), and bad “software programs” (erroneous, rigid and dogmatic beliefs), their “output” (behavior) onto the “screen” (Life) will also be bad, and will contribute to deteriorating conditions on a mass scale. Like a computer, the behavior of a human being will largely depend upon its programming (the quality of the information put into it, which enables it to process and create efficiently).

Garbage In : Garbage Out
Quality In : Quality Out

HOW OUR REALITY IS BUILT

Manifested Reality

The quality of the condition which manifests in any society is based upon the aggregate quality of human behavior within that society.

Human Behavior

Each individual's behavior is based upon the quality of their decision-making processes which, in turn, are based upon the quality of their available information.

Decision-Making Processes

These processes take place in the human Mind and are chosen by each individual based upon available information.

Available Information

This constitutes potential Knowledge that may be gathered, processed, understood and acted upon by individuals.
