### Bart's Bridges to Hope: A "Kids at Hope" Reflection

~Bart Regelbrugge, CWC Board Member

Many adults influence developing children and adolescents in many ways. We as adults can be positive forces as they cross their individual bridges to hope! They may say some words that are very negative. However, they are doing the best they can at given moments! These words may mean that they need help! It is obvious they have more to learn! Our compassionate responses are important examples that we set. Hopefully, they can successfully persevere on their journey across bridges to hope! With hope, their futures are clearly visualized!
