PIN RELEASE ARM

The Pin release arm allows easy height adjustment of the T-arm. Galaxy Lite comes standard with height options that you can set your arm according to your body height.

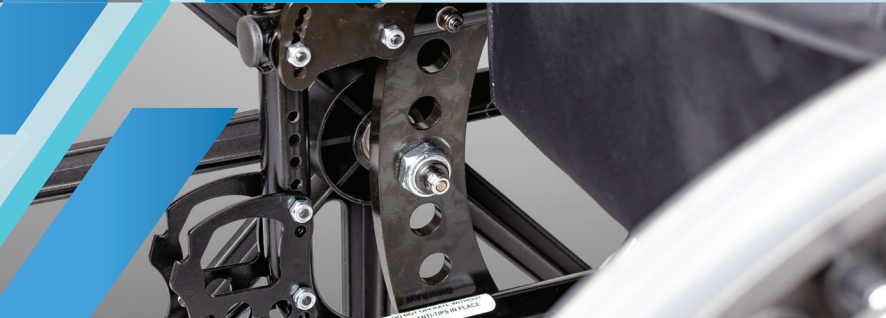

DUAL SWING AWAY LEG SUPPORT

Designed to be removable as well as made easy to swing away to the side to make transfers easier. They provide easy access for users to use their feet in order to move their wheelchair. Our Dual swing system also helps the user to easily climb in and out of the wheelchair.

ADJUSTABLE AXLE PLATE DESIGN

The axle plate ensures you are getting the maximum adjustment range of seat top to floor height that you need without changing parts or adding unnecessary weight.

QUICK RELEASE

Allows for quicker and easier change. This option is of value to those who use the folding chair for transport and want to reduce chair's weight when loading it into a vehicle. Comes in plastic Coated or stainless steel hand rim options

Future Mobility is a North American manufacturer of wheelchairs, backs, cushions and accessories with our parts manufactured in house. This gives us the ability to customize anything needed for specific customer requests.
