THE BEAUTY EXPERT

MAD HIPPIE EYE CREAM:

best vegan eye cream for puffy bags

This vegan eye cream for under-eye bags has a seriously impressive ingredients list (including highlights like vitamin C, antioxidant-rich white tea, and skin-soothing chamomile extract). Gently pat the formula around your eyes once in the morning and once at night to reap the benefits.

Mad Hippie Triple C Night Cream

The reason this new night cream is called "Triple C" is because it includes three different powerful bioavailable forms of vitamin C, none of which are easy to say: tetrahexyldecyl ascorbate, magnesium ascorbyl phosphate, and ascorbyl glucoside. Together, they work to brighten the skin and reduce discoloration, while supporting ingredients like reishi, turmeric, and cloudberry provide outstanding antioxidant protection.

Women's Health

"Best Anti-Aging Products Dermatologists Swear By"

With vitamins C and E, plus hyaluronic acid and grapefruit, New York City dermatologist Debra Jaliman, M.D., likes this antioxidant-rich serum to help protect against sun damage. She also loves the added chamomile, which is calming to skin, as well as clary sage, an ingredient that balances sebum production. "It's good for anti-aging and as an overall brightener," she says.

Bodywellness of Naples is thrilled to now introduce Mad Hippie products for home skincare wellness! Book your Mad Hippie Express Experience 30 minute facial with any massage session.

Here at Mad Hippie we are passionate about skin care.

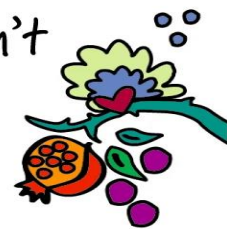

We are also passionate about ingredients.

Unfortunately, the beauty care industry is riddled with companies that put profits first & fill their products with cheap, unsafe ingredients.

Call us hippies, but we just don't feel that's right.

Instead, our formula is quite simple:

More of the Good Stuff + None of the Bad

- ✓ Antioxidants
- ✓ Peptides
- ✓ Bioavailable vitamins
- ✓ Alpha hydroxy acids

- ~~Petrochemicals~~
- ~~Parabens~~
- ~~Sodium Lauryl Sulfate~~
- ~~Synthetic Fragrance~~
