Having already become an avid Bible reader a few years before, I felt the need to dig deeper and to find some help with putting it all together and with understanding some of those more mysterious passages. John MacArthur was already on my radar due to his sermon and Bible teaching radio program "Grace to You. So in I bought MacArthur's study Bible and dove into the Having already become an avid Bible reader a few years before, I felt the need to dig deeper and to find some help with putting it all together and with understanding some of those more mysterious passages.

So in I bought MacArthur's study Bible and dove into the deep end. Great footnotes! The extra information was feast for me. I read and reread over several years. Just for the record though, I do generally caution people not to take anyone's footnotes as being as authoritative as the scriptures themselves! Study Bibles, in general, are there to help you but shouldn't become your sole source of theological understanding or personal application.

In addition to reading scripture for yourself with the help of Holy Spirit, seek out various opinions if the passage seems difficult to discern, then come to your own conclusion. To sum up, John MacArthur is very useful, but I don't always agree with his take on passage, as would be so with any commentary author or study Bible editor. Jul 26, Bonnie P rated it liked it.

I purchased this bible for my husband. The notes are very helpful in referencing. However I came across Luke Above verse 19 a title. The parable of the Rich man and Lazarus. I am not a bible scholar but I was taught that is NOT a parable. I spoke with current pastor, old pastor another Baptist pastor and I searched many other study bibles I have Ryrie, the Jeremiah, life application and none of them label that a parable. Jesus specifically names Lazarus. This being said I am now concerned I purchased this bible for my husband.

This being said I am now concerned that other notes in his bible may not be on point and I am looking for another for him. It is unfortunate. I should have asked before I purchased it for him. It is up to us to use discernment. I just thought I would mention what I ran across. We should always take the word of God as authority over any notes, however notes and headings which can aid are also able to confuse if they are not correct. Perhaps it was a misprint. I also read many Bible Commentaries as I was going through each book and MacArthur aligned with many of the scholars. I have other Study Bibles, but I prefer this one.
