

XXL - REHAB ROLLATOR KING

- It is both functional and has a light and discrete design. It fits through doorways and folds easily for transport and storage in cars.
- It includes a large seat, extra strong tubes and 8" massive tyres that provide extra security, stability and comfort.
- The XXL-Rehab Rollator King has a large support surface. When the user sits down heavily, the back arch prevents the weight being placed too far beyond the support surface. In this way, the risk of accidents is prevented significantly.
- The critical point for rollators for bariatric users are the brakes. The XXL-Rehab Rollator King has "feather touch" hand brakes that provide superior control and ensure the walker is easy to maneuver and to hold the weight.
- The rollator comes with a basket and the handles are fitted with reflectors.

Warranty
1 Year

Compliance
ISO 12 06 06 - 11
