- Removes difficult stains like coffee or tea.
- Non-corrosive and no harsh fumes.
- Pleasant deodorizing fragrance.
- Use as a pre-soak to remove blood.
- Holds a CFIA letter of non-objection

### PRODUCT CHARACTERISTICS

**Proxi Hard Surface Cleaner** is formulated to remove hard water stains, mineral deposits, and soap scum. It is effective on tile and grout, counter tops, cutting boards, stainless steel, and most hard surfaces.

**Proxi Hard Surface Cleaner** is an aqueous, one part cleaning composition consisting of Oxygen Bleach (Hydrogen Peroxide), acid surfactant and compatible formulation ingredients. The Oxygen Bleach breaks down the polyphenolic compounds, the body fluids, the grease and grime, coffee and mildew. The acid in **Proxi Hard Surface Cleaner** dissolves hard water scale such as calcium carbonate and magnesium carbonate. The surfactants quickly solubilize additional scale.

**Proxi Hard Surface Cleaner** works without scrubbing and will clean effectively without scratching, even the most delicate surfaces.

**Proxi Hard Surface Cleaner** destroys odor-causing matter such as vomit, urine, hair oil, mold, sour milk and mildew, without the use of perfumes or fragrance. It does not mask odors it destroys them.

**Proxi Hard Surface Cleaner** is harmless to the user, contains no Volatile Organic Compounds (VOC's) and leaves behind no harmful residual chemical cocktail because it breaks down into water and oxygen after it completes its work.

Professional cleaners will be especially pleased to discover that **Proxi Hard Surface Cleaner** is low foaming. It will successfully dislodge soil and dirt and suspend this solution above the substrate until it is wiped off with a clean damp cloth.

The No Rinse feature is the most important time saver of all.

### READY TO USE

#### DIRECTIONS FOR USE

##### **Spray & Wipe (heavy soil and grease):**

1. Spray area.
2. Let stand for a few minutes.
3. Wipe or scrub clean.

##### **Heavy Duty Carpet Spotter:**

It is essential to test for color fastness in a discreet area before use.

1. Spray spot, let sit for 5 minutes.
2. Extract or blot until stain disappears.
3. Rinse with clean water.

##### **To Restore Tile & Grout:**

1. Flood floor with solution.
2. Let solution stand for 5 minutes to penetrate soil and soap scum.
3. Scrub using a brush or floor pad.
4. Pick up soiled solution with a mop or wet vacuum.
5. Rinse with clean water.

##### **Toilet Bowls:**

1. For best results, remove water from bowl by forcing it over the trap with a swab mop.
2. Wet all surfaces thoroughly. Be sure to apply cleaner under the rim of the bowl or urinal.
3. Scrub with a toilet bowl scrub or pad.
4. Let sit for at least 5 minutes.
5. Rinse the bowl or urinal by flushing.
