

Why Register or Cross-Register my Horse?

1. Registration provides independent confirmation of the breeding of your horse.
2. Registration adds value to your horse: owners can better research the horse's pedigree, buyers better understand the horse they are buying, breeders better understand the horse they are breeding.
3. Registered and Cross-Registered horses are eligible for inspection/approval in Canada.
4. Registered and Cross-Registered horses are eligible for IDHSC programs including:
 - a. Inclusion in the Irish Horse Register
 - b. Promotion on the IDHSC website and materials
5. Your horse becomes a recognized member of the world-wide family of Irish horses.
