

Soleil Wellness & Day Spa Facial Treatments

Express Facial (25 Minutes)

The Express Facial is a quick 25 minute, refreshing treatment that cleanses, exfoliates, masks and tones the face and includes a hand massage.

Signature Facial (50 Minutes)

Our Signature Facial is customizable for your skin type and starts with a complimentary skin analysis. You'll find this facial to be a very relaxing treatment which includes cleansing, exfoliating, massage, hand massage, mask, and finishing with a moisturizer to keep your skin glowing.

Quench Facial (60 Minutes)

The Quench Facial hydrates that dry, flaky skin that you might be having trouble with. It is designed to help your skin at a deeper level. The Quench Facial's main focus is exfoliation; the top layer of old dead skin will be gently removed from the face to allow products to penetrate deeply into the skin and help stimulate new skin cells. This exfoliating mask helps clear your pores and leave your skin feeling soft and healthy. The Quench Facial includes cleansing, exfoliation, massage, mask and cataphoresis with serum.

Soothe Facial (70 Minutes)

The Soothe Facial is perfect for people with sensitive skin and rosacea. It will help reduce the redness and minimize inflammation on the skin. The Soothe Facial includes cleansing, massage, extractions (optional), high frequency (optional), masking and for completion, a moisturizer to keep the skin soft and soothed.

Balance/Refine Facial (80 Minutes)

The Balance/Refine Facial is a pore minimizing facial, best for oily and combination skin. This treatment is designed to give you a youthful glow and helps balance oil production and reduce the appearance of large pores. It includes cleansing, skin analysis, exfoliating, desincrustation (Galvanic Current), extractions, high frequency, massage, masking and a moisturizer for completion.

Recover Facial (80 Minutes)

The Recover Facial is perfect for those with acne prone and oily skin. This facial will cleanse the skin and remove debris, impurities and oils and unclog pores. The facial includes cleansing, exfoliating, desincrustation (Galvanic Current), serum with ultrasound gel, high frequency, massage, masking and completing with a moisturizer.

Microcurrent Facial (115 Minutes)

This facial includes an express facial with microcurrent (natural facelift). Microcurrent Facials tighten and smooth the muscles and connective tissues in the face by increasing cellular activity. Microcurrent has been shown to reduce wrinkles and puffiness and tightens pores and typically lasts around 72 hours after service. Each microcurrent treatment builds upon the last. Cumulative microcurrent treatments ultimately build the strength in your facial muscles which helps them hold results from a microcurrent session longer.

Back Treatment (30 Minutes)

Back Facials help clarify, soften and deep cleanse the skin on the back. This treatment includes cleansing, exfoliator, massage, masking and completing with a moisturizer.
