

Unlock learning potential

Visible Thinking with LVT

Creative thinking workshops for learners & home-education groups

Engaging

Over the years I have used LVT widely and written about the value of this tool; I now need to update that literature.

Dynamic

In this practical project parents and carers will see the power of LVT as a thinking tool and I will be able to see how well LVT works away from the school environment.

Stimulating

It is this information that the project is designed to gather. This will then be published as an article via my website and disseminated to home-education groups across the country.

Empowering

Democratic

LogoVisual Thinking (LVT) is a powerful tool that ...

Inclusive

- stimulates thinking
- develops learning
- develops language
- promotes enquiry
- promotes collaborative learning
- allows children to discover new meanings

Collaborative

To discover more visit www.logovisual.com for links to the knowledge base, articles, case studies and information.

Visible Thinking with LVT

In this session you will find out

- ✓ What LVT is and how it works,
- ✓ How LVT can deepen the thinking of learners in all subjects.
- ✓ How LVT stimulates dialogue, discussion and collaborative learning
- ✓ How LVT can add value to the home-learning experience

Visible Thinking plan of the session

- Introductions.
- Principles of creative learning and the primacy of language.
- The range of creative learning tools available.
- Working with LVT—understanding how it works.
- Questions ... questions.
- Planning—the way forward.

“This session showed me how thinking can impact on learning - engaging learners is the key to how they learn.”

“I have a better understanding of how I can embed thinking skills into lessons.”

“Being able to participate in the LVT activities really helps to see the approach in action, enabling me to feel confident about taking LVT into the classroom.”
