Registered Ponies 110 –415

Front Cover: Fire Blaze of Marshwood (Imp UK)

FOREWORD

The New Zealand Shetland Pony Breeders Society (Inc) was founded in 1979. Its aim is to keep the breed pure and to maintain the high standards for the breed attained in the United Kingdom and Australia. A secondary, but no less important aim is to maintain breeding records and to publish these to help and inform all those interested in the Shetland Pony.

The demand for well-bred registered Shetland ponies has increased – not only among breeders, but with those people who want a quality Shetland of known and recorded breeding and with the conformation and temperament to be a good performance animal. Whether as a children's mount, an in-hand-showing animal or in harness, the Shetland Pony is outstanding.

To maintain the quality of the Shetland Pony it is essential that breeders always look to the best when breeding and keep their registration up to date. Registration not only greatly enhances the value of the animal, but ensures that the future generations of breeders can continue to maintain the high standard of today's ponies and perhaps even improve upon it. This cannot be done without information and records that registration and publication of a stud book provide.

The New Zealand Shetland Pony Breeders Society (Inc) is pleased to have completed Volume II of the stud book and continue to provide present and future breeders with a valuable store of information. The considerable time and effort expended by members of the Society in the production of the Stud Book is greatly acknowledged and appreciated

DEFINITION

A Shetland Pony that is registered with this Society or registered with the Shetland pony Stud Book Society of Great Britain and / or the Australian Pony Society Stud Book Society (Inc) Shetland Section.

Applications shall be restricted to registered, imported Shetland stallions and mares and registered descendants thereof. There is no provision for unrecorded Shetlands or part-bred ponies to be registered with the Society.

DESCRIPTION

Height: Registered Shetland ponies must not exceed the height of 42" (10 hands and 2 inches). Ponies are measured with a measuring stick from the top of the wither to the ground.

Colour: Shetland ponies may be any colour known in horses.

Coat: The winter coat is formed of thick wool through which grows long straight hair which sheds the rain and keeps the ponies' skin completely dry in the worst weather. By contrast, the summer coat is short and should carry a beautiful sheen.

Head: The head should be small, with a wide forehead and small, well placed ears. The eyes should be large and prominent. The face should be neither dished nor roman-nosed. The muzzle must be broad and the teeth and jaw correct. ie, the teeth must meet together when the jaw is shut.

Body: The neck should be properly set onto the shoulder, which, in turn, should be sloping, not upright, and end in a well-defined wither. The body should be strong, with plenty of heart room, well-sprung ribs, the loin strong and muscular, the quarters broad and long with the tail set well up on them. The mane and tail hair should be long, straight and profuse and the feathering of the fetlocks straight and silky.

Fore-Legs: The fore-legs should be strong and muscular, with well-shaped, strong hocks, neither hooky nor too straight. When viewed from behind, the hind-legs should not be set too wide apart nor should the hocks be turned in.

Feet: The feet should be round, open and very hard.

Action: Free and straight. Full use should be made of shoulders, knees and hocks.

Mares

ACHNACARRY DUVESSA DAWN 239NZ

Sire - Narrandera Haymish 80NZ
Dam - Narrandera Illyarrie 105NZ
Foaled - 1 November 1996
Height - Under 10.2 h.h.
Brands - Achnacarry near shoulder
2 over 6 off shoulder
Colour - Black
Breeder - Keys K
Owner - Keys K

ALANDA LITTLE POLLY FLINDERS 243NZ

Sire - Narrandera Haymish 80NZ
Dam - Thorpeville Brodie (Imp Aust) 61NZ
Foaled - 2 October 1996
