WINDAMERE HORSE HAVEN PRINCIPLES

WINDAMERE HORSE HAVEN Inc. was established to help save the poor, neglected, abandoned or unwanted horses that are destined for the knackery. Our motto is “Helping Horses in Need to a Brighter Future”. Our aim is to give these horses a second chance at life through rehabilitation, re-education, and TLC. Our view is that once the horse is fully recovered and back to full health we will find it a suitable adoptive home. We will match horse to new prospective owner with continued ongoing support throughout the horse’s life.

We are not horse dealers and are against “dogging” horses. We offer another alternative to those in need without judgement.

We endeavour to

- Investigate the root cause of issues presenting as unwanted behaviour, poor condition, or problems under saddle.
- Work closely with equine professionals and take the time needed to rebuild the body and mind of a horse that has broken down or failed to thrive.
- Spend the time each horse needs to recover and recuperate.
- Avoid the use of quick fixes and forceful gadgets that can create tension and compound, mask or even escalate unwanted behaviour.
- Provide basic training to our volunteers in keeping with our aim to better understand how horses learn and to work with horses towards willing partnership, natural collection, and balance.
- Provide training clinics and lessons designed to encourage our volunteers as well as novice and returning riders to learn, practice and become proficient at groundwork skills and Natural Horsemanship. Our training clinics and lessons emphasise the fundamental principles of natural horsemanship: pressure and release, and allowing horses to respond rather than react.
- Demonstrate and promote responsible horse husbandry; for example, avoidance of breeding from rescue horses.
- Find each horse the most appropriate and (where possible) forever home.
- Demonstrate, and cultivate awareness of, the therapeutic value of Natural Horsemanship (aka groundwork and agility) in relation to companion animals.
- Cultivate awareness of the benefits, including therapeutic, of environment enrichment for horses and handlers, ie. education, recreation, and wellbeing.
- Creating opportunities to improve perceptions in the equine community and the general population regarding the benefits of companion horses, to improve welfare outcomes.
- Promoting awareness of the changing needs of horses throughout their lifetime and value beyond their time as riding horses.
- Instil in horse owners the importance of commonly neglected routine care, including equine dental, farriery, worming, correct fit of tack, and general care.
