

Explore our new “Botox-in-a-Bag” Hexapeptide Jelly Masks and enhanced serum infusion with any Ultrasonic or Signature Facial. Each mask may be used twice so we will be sure to pack yours to go for a facial happy hour at home! Enjoy firming and hydrating results with a glow...

Our unique Hexapeptide Jelly Masks are Hydrolyzed Marine Collagen Peptide and Sodium Alginate Based, made with 100% pure ingredients. Hydrolyzed Peptides are broken down into smaller molecules and easily absorbed into the skin. Alginate is a natural sugar that is extracted from the cell wall of brown Algae in cold water areas. Alginate is extremely soothing, calming and hydrating; it has the exceptional quality of “holding on to” or “carrying” other active ingredients into the skin. All masks are filled with Hyaluronic Acid, Aloe Barbandensis Leaf Extract, Trehalose, Vit B3 and E, Alginate, Senine, Pentapeptide-5, Growth Modulating Peptide, Hexapeptide-3 and Recombinant EGF to create the ultimate Hydrating Mask. Explore the series for both facials and home care!

EGF Repairing Mask: EGF Powder – wrinkle improvement, hydration, and pigmentation prevention. EGF encourages cell growth and stimulates the division of keratinocytes and fibroblasts, which then synthesizes fibrous proteins that improve collagen and elastin.

Nourishing Rose Mask: Rose Extract – Anti-inflammatory properties help minimize redness and soothe irritation – making it ideal for all skin types (acneic, dry, mature, sensitive) because of its calming and healing abilities. In addition, Rose Extract is believed to be able to help reduce spots and discoloration as well as provide natural toning for the skin.

Brightening Vit C Mask: Vit C (L-ascorbic acid), Citrus Medical Limonum Extract – antioxidant properties of vitamin C (ascorbic acid) and its role in collagen synthesis make vitamin C a vital molecule for skin health. Dietary and topical ascorbic acid have beneficial effects on skin cells, and several studies have shown that vitamin C helps prevent and treat ultraviolet (UV)-induced photodamage.

Hydrating Tropical Mask: Kiwi Fruit Seed Oil – aids in the relief of itchy, scaly, irritated skin conditions such as eczema and psoriasis. Kiwi contains a significant amount of Vitamin C which helps combat wrinkles, blotches, large pores, acne, dark spots and other skin blemishes.

Clarifying Charcoal Mask: Bamboo Charcoal – removes chemicals, dirt and other micro particles from surface of skin, which helps achieve a flawless complexion and fight acne.
