

Always There For You

Pascale Lutz

**Everyday miraculous occurrences
through Angelic interventions.**

Foreword By Stevan J. Thayer
Director of "The Center of Being, Inc." and
author of "Interview with an Angel"

As Pascale's healing energy flowed and her heart opened, synchronicity brought her into contact with the realm of Angels. She not only expanded to be able to channel their healing energy in her work, but she expanded to see their loving hands guiding, directing, surrounding and protecting her in her life. You will delight in sharing the angelic miracles of healing that Pascale has facilitated. From airport Angels, to Angels for grumpy nurses, Pascale beautifully shares her stories testifying to the Angels at work in many of her life's encounters. Once Pascale's story has touched your heart, the Angels will always be there for you too.

Stevan J. Thayer, Director, The Center of Being, Inc.

This is a genuine book from a genuine person who has overcome so much to share her Angel stories with a wider audience. The beauty is in the simple trusting and letting go that Pascale demonstrates in her unique fun loving way. A must read for anyone who loves Angels.
