

Telemental Health Informed Consent

I, _____, hereby consent to participate in telemental health with, _____, as part of my psychotherapy. I understand that telemental health is the practice of delivering clinical health care services via technology assisted media or other electronic means between a practitioner and a client who are located in two different locations. I understand the following with respect to telemental health:

1. I understand that I have the right to withdraw consent at any time without affecting my right to future care, services, or program benefits to which I would otherwise be entitled.
2. I understand that there are risks, benefits, and consequences associated with telemental health, including but not limited to, disruption of transmission by technology failures, interruption and/or breaches of confidentiality by unauthorized persons, and/or limited ability to respond to emergencies.
3. I understand that there will be no recording of any of the online sessions by either party. All information disclosed within sessions and written records pertaining to those sessions are confidential and may not be disclosed to anyone without written authorization, except where the disclosure is permitted and/or required by law.
4. I understand that the privacy laws that protect the confidentiality of my protected health information (PHI) also apply to telemental health unless an exception to confidentiality applies (i.e. mandatory reporting of child, elder, or vulnerable adult abuse; danger to self or others; I raise mental/emotional health as an issue in a legal proceeding).
5. I understand that if I am having suicidal or homicidal thoughts, actively experiencing psychotic symptoms or experiencing a mental health crisis that cannot be resolved remotely, it may be determined that telemental health services are not appropriate and a higher level of care is required.
6. I understand that during a telemental health session, we could encounter technical difficulties resulting in service interruptions. If this occurs, end and restart the session. If we are unable to discuss since we may reconnect within ten minutes, please call me at _____ have to re-schedule.
7. I understand that my therapist may need to contact my emergency contact and/or appropriate authorities in case of an emergency.
8. South Shore Behavioral Health is providing telemental health services on a temporary basis granted by permission from the Governor of Massachusetts and Massachusetts health insurance companies due to Covid-19. Once these temporary permissions are lifted, all clients wishing to continue services may do so face to face in your home, school, or our office.

COUNSELING is a confidential process designed to help you address your concerns, come to a greater understanding of yourself, and learn effective personal and interpersonal coping strategies. It involves a relationship between you and a trained therapist who has the desire and willingness to help you accomplish your individual goals. Counseling involves sharing sensitive, personal, and private information that may at times be distressing. During the course of counseling, there may be periods of increased anxiety or confusion. The outcome of counseling is often positive; however, the level of satisfaction for any individual is not predictable. Your therapist is available to support you throughout the counseling process.

CONFIDENTIALITY:

All interactions with South Shore Behavioral Health Clinic, including scheduling of or attendance at appointments, content of your sessions, progress in counseling, and your records are confidential. You may request in writing that the counseling staff release specific information about your counseling to persons you designate.

EXCEPTIONS TO CONFIDENTIALITY:

- The counseling staff works as a team. Your therapist may consult with other counseling staff to provide the best possible care. These consultations are for professional and training purposes.
- If there is evidence of clear and imminent danger of harm to self and/or others, a therapist is legally required to report this information to the authorities responsible for ensuring safety under the "Duty to Warn, Duty to Care Law" MGL Chap 123, sec 36B..
 - Massachusetts state law requires that staff of the **South Shore Behavioral Health Clinic** who learn of, or strongly suspect, physical or sexual abuse or neglect of any person under 18 years of age must report this information to child protection services.
 - A court order, issued by a judge, may require the **South Shore Behavioral Health Clinic** staff to release information contained in records and/or require a therapist to testify in a court hearing.

We appreciate prompt arrival for appointments. Please notify us, or your therapist if you will be late. Twenty-four hour notice of cancellation allows us to use the time for others.
