

Appointment Date: _____

Provider Name: Britney Algood, CNP

Telehealth Visit Consent Form

Tele-Health Information for Patients

Telehealth is a way to visit with healthcare providers, such as your doctor, nurse practitioner or counselor. You can talk to your provider from any place, including your home. You don't go to a clinic or hospital.

How to use telehealth?

- You talk / or use video to communicate with your provider by phone, computer, or tablet.
- You and your provider won't be in the same room, so it may feel different than an office visit.
- Technical problems may interrupt or stop your visit before you are done
- Your provider may decide you still need an office visit.
- If people are close to you, they may hear something you did not want them to know. You should be in a private place, so other people cannot hear you.
- Your provider will tell you if someone else from their office can hear or see you.
- We use telehealth technology that is designed to protect your privacy.

Telehealth Visit Cost?

- What you pay depends on your insurance.
- A telehealth visit will not cost any more than an office visit.
- If your provider decides you need an office visit in addition to your telehealth visit, you may have to pay for both visits.

By signing this Consent, I acknowledge that I have read, understand and have had any of my questions regarding Telehealth answered. I agree to move forward with my Telehealth appointment today with my provider.
