

# Duron Stone Grip – Part of extended range

The colours attached are an example only. If unsure a small sample can be made up for a for a fee if requested. These Stone Grip colours are from our Extended range and are made up on request only.

However, you will only pay the same price as per the regular Stone Grip Range. **Many more colours options to come!**

*Stone Grip range is the only non-slip flake coming straight off the production line that incorporates a slip resistant additive mixed through. Stone Grip has been Laboratory tested and achieved slip ratings between R10 - R12.*

*However, all project sites differ; with environment, site conditions, application and coating systems. Therefore individual site testing would be required to ensure the specified slip rating has been achieved*
