I understand that as a licensed health care practitioner, Steve Sommers LMFT, LMT has a “duty to warn” under the following circumstances: if Steve believes I am a danger to myself or others, if Steve believes or knows that I am abusing a minor, a senior, or a disabled or otherwise impaired person, or, if he becomes aware of past abuse of a child that has not been previously reported to the authorities.

Risks and Benefits of Therapy:

People who choose to undertake therapy often make changes in the circumstances in their lives. These changes may involve their family relationships, spousal relationship, work / career relationships, or friends and social community. They may begin to feel differently about themselves or about virtually any other aspect of their lives. To the best of my abilities, I will support clients through the process of transitions, healing, and changes; and, ultimately each client is responsible for their own growth and their own choices.
