### GARAGE DOORS

Henderson Glass Reinforced Polyester (GRP) doors are individually hand-crafted with a choice of beautiful smooth Gloss White or timber effect designs. Every door is produced from the mould and gives a virtually maintenance-free finish.

**CONSORT** (Gloss White only)

**CAVERSHAM**

**SOLSTICE** (Gloss White only with Black mock glazing)

**ABBAY**

**CUMBERLAND**

**ASHTON**

**PRESIDENT** (Gloss White only)

#### GRP COLOURS

\*Consort, Solstice & President only.

All finish and colour options are shown for guidance only. Due to the limitations of the printing process colour likeness cannot be guaranteed. Your Henderson supplier will be able to show you finish and colour samples.

#### CASTLE STEEL COLOURS

\*Durham & Warwick only.

\*\*Durham, Warwick, Warkworth and Lumley.

\*\*\*Durham, Warwick and Lumley.

## CASTLE STEEL GARAGE DOORS

Henderson Castle steel doors offer the widest range of pre-finished colours available for up and over doors. With a primed White finish as standard and up to twelve colours available, you can choose a colour to complement your home, safe in the knowledge that fully finished doors are guaranteed for ten years.

**WARKWORTH** (Sunrise mock glazing)

**BAMBURGH** (Four panel mock glazing)

**ROCHESTER**

Bamburgh and Warkworth doors are available with a choice of eight panel, four panel or sunrise mock glazing. For added security, the cassettes have steel behind them and cannot be seen through. Certain sizes of double doors have a centre bar feature and do not have a fascia plate.

# HENDERSON

## PREMIERE STEEL GARAGE DOORS

Henderson Premiere steel doors are the benchmark for quality. The door structure and crisp design are the result of one of the most advanced manufacturing processes of its kind in the world, giving a box-section steel chassis, 'button-locked' panels and doors available in size increments of 1mm without the use of infill pieces.

**REGENT**

**CORINTHIAN**

## TIMBER GARAGE DOORS

For the beauty of natural wood, look no further than a Henderson timber garage door. Hand-crafted using solid cedar and marine ply sourced only from replenishable sources, these 11 beautiful designs allow you to enjoy the luxury of wood without harming the environment.

**WARWICK** (Unstained as standard. Mahogany and Dark Oak finishes available)

**LINCOLN** (Unstained as standard. Mahogany and Dark Oak finishes available)

**GLOUCESTER** (Unstained as standard. Mahogany and Dark Oak finishes available)

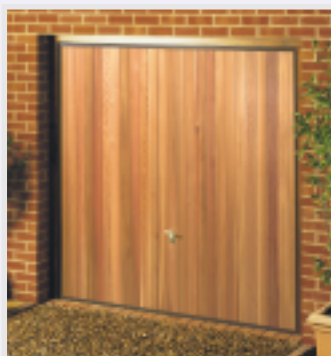

**BRANDON** (Unstained as standard. Mahogany and Dark Oak finishes available)

**BERKELEY** (Unstained as standard. Mahogany and Dark Oak finishes available)

**BERGEN DIAGONAL** (Unstained as standard.) available as LH (shown) or RH.

**BERGEN** (Unstained as standard)

Timber is a natural product and there will be variations in pattern, shading and grains. No two doors will be the same.

**BERGEN CHEVRON** (Unstained as standard) inset is the BEVERSTONE with mock hinges.

**BALMORAL** (Unstained as standard. Mahogany and Dark Oak finishes available)

**BUCKINGHAM** (Unstained as standard. Mahogany and Dark Oak finishes available)

### TIMBER COLOURS

**Mahogany** (Warwick shown)

**Dark Oak** (Lincoln shown)

All Henderson timber doors are supplied with a solid brass handle and lock as standard. Factory applied timber stain finishes are hand applied and will raise the timber grain slightly when dry. All finish and colour options are shown for guidance only. Due to the limitations of the printing process colour likeness cannot be guaranteed. Your Henderson supplier will be able to show you finish and colour samples.

### ASK FOR A COPY OF THE MAIN HENDERSON BROCHURE FOR EVERYTHING YOU NEED TO KNOW ABOUT DOOR SECURITY, OPTIONS, FINISHES AND REMOTE CONTROL

Multi-point security factory fitted as standard to all up and over doors (Door with tracked gear shown)

Vision windows

Steel and aluminium garage door frames

Rubbing and blade strips

Remote control available for all Henderson garage doors

The operating gear determines the position of the door handle. On doors with canopy gear, the handle is approximately one third down from the top edge. On doors with Optimizer or tracked gear, the handle is approximately one third up from the bottom edge, as shown. The handle position on Castle Range steel doors is the same for all operating gear.

## ROLLER COLOURS

All finish and colour options are shown for guidance only. Due to the limitations of the printing process colour likeness cannot be guaranteed. Your Henderson supplier will be able to show you finish and colour samples.

## GARAGE DOORS

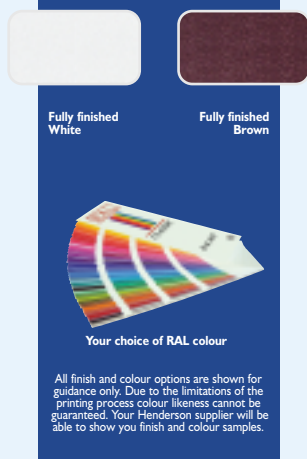

# ROLLER

## GARAGE DOORS

Henderson roller doors help you to make the most of the space in your garage. Installed behind the brickwork opening, the door rolls up around a drum with no outswing as it opens or closes. This allows you to park right up to the door both in the garage and on the driveway.

## g60 FINISHES

All finish and colour options are shown for guidance only. Due to the limitations of the printing process colour likeness cannot be guaranteed. Your Henderson supplier will be able to show you finish and colour samples.

## GARAGE DOORS

# g60 SECTIONAL

## GARAGE DOORS

Designed and developed in Scandinavia, the **g60** is a revolution in garage door design. From the outset, we designed this range of doors to be beautiful, unique and to grace any home. It was also clear that there would be much more to these doors than just a pretty face. During 3 years of research, investigation and design work, we've listened to homeowners and garage door installers, safety professionals and security professionals and we've used our experience to create a sectional garage door which we believe gives you more value for your money.

### So, what's the secret?

Like all sectional doors the **g60** consists of horizontal panels which rise vertically then glide horizontally into the garage, requiring the minimum of effort to open and close. However, this is where the similarity to other sectional doors ends. The **g60** has been designed to give you increased safety and strength, more beauty and more space, and now more warmth with a mammoth 42mm of insulation, up to 100% more than other doors in the same class.

## Guarantee

Henderson garage doors and remote control systems are guaranteed for a full two years from the date of supply. The exterior face of Henderson roller doors and Castle one-piece doors (Plastisol fully finished only) is guaranteed for ten years from the date of supply. Standard terms and conditions apply.

## Product Policy

As our policy is one of continual product development, we reserve the right to introduce improvements to designs and changes to specifications without notice.

As the size of the garage door rises in height and width, the panel frequency and profile changes, therefore doors of different dimensions can be significantly different in appearance.

For full details of door guarantees, terms and conditions and technical specifications, see the main Henderson brochure 'Welcome Home to the Finest Garage Doors', visit our website or contact the Henderson Customer Service Department on Freephone 0800 252883. If in any doubt, please ask. We are always happy to help.

HP 200 Plastisol is a registered trademark of Corus plc.
