## Unicorn and Critter Camp

**Campers will get a unique, hands-on experience with horses, alpacas, chickens, bunnies and hedgehogs! Our mission is to teach and inspire a new generation of equestrians and nature lovers.**

### Camp Highlights Include:

- **Riding instruction on Kemper Knoll Unicorns.** Unicorns are rare and amazing creatures. We believe that our school ponies are true unicorns because few animals are as kind, professional, well-trained and reliable as our school ponies.
- Lessons on **beekeeping** from an experienced beekeeper (Note: This does not include handling bees, but does include deconstructing old hives, frames, and learning about extracting honey.)
  - Hand **walking alpacas.**
  - Completing **crafts**, including crafts that use alpaca fiber.
    - Grooming and washing ponies.
    - Learning how to **harness and drive miniature horses.**
  - Meeting hedgehogs and learning about their unique adaptations for survival.
- Experienced staff - several are licensed teachers and hold graduate degrees in the field of education.
  - Camps run from 9am-5pm.

### Camp Dates and Fees:
