Shooters may win only one trophy per event and must take the highest trophy. A contestant cannot win both the special category trophy and any other trophy in the same event. Special awards that are not specific trophies enumerated above may be exempt from this Rule.

### **ATA Rules Regarding Special Category Shooters**

A contestant whose score qualifies them for more than one (1) trophy must notify shoot management as to which trophy he/she desires to accept or shoot for. The shooter must make his/her declaration after the scores for each EVENT are posted and before entering in any shoot-off/carry-over.

Any shooter who is tied for event Champion may shoot-off/carry-over for the Championship trophy. If a shooter fails in the championship trophy shoot-off/carry-over and has declared a special category at the time of classification, the shooter can fall back to the declared special category.

Any shooter who has declared a special category at the time of classification and whose score qualifies for any trophy in his/her declared category, will compete for the category trophy and not for place, class or yardage group.

Any special category shooter whose score does not qualify for a trophy in his/her category, may compete for place, class or yardage group trophies.

Once any declarations have been made either by a shooter or shoot management, the declaration is final and cannot be changed. There shall be no exception to this rule.

Shooters must declare at the time of registration their qualification for Special Category trophies (Lady, Junior, Sub-Junior, Veteran, or Senior Veteran) if he/she so chooses.

## Option and Added Money Payout Definitions

### Percentage System

In a purse or option that is paid 50-30-20 percentage system, the top three SCORES are paid. If the top three scores are three 99s, two 98s and four 97s, the three 99s will split 50% of the purse, the two 98s will split 30% of the purse and the four 97s will split 20% of the purse.

## SNOWSHOE GUN CLUB

KENAI, ALASKA

**"Good Luck to all the Shooters"**

[www.snowshoegunclub.com](http://www.snowshoegunclub.com)

### **Fixed High Gun System**

In a purse that is paid "50-30-20 Hi Gun", the top three SHOOTERS are paid. The number of payouts is fixed no matter how many shooters play the purse. Listed below are four cases for a purse paid 50-30-20 Hi Gun with the number of shooters shooting the different scores changing to show the effect on the other scores.

one	99 gets 50%	one	99 gets 50%
one	98 gets 30%	two	98's split 50%
one	97 gets 20%		97's no pay
	OR		OR
one	99 gets 50%	three	99's split 100%
one	98 gets 30%	two	98's no pay
one	97 gets 20%		97's no pay

### **Variable Hi Gun System**

The method of paying a variable Hi Gun is the same as the fixed Hi Gun except the number of payouts depends on the number of entries in the option. In a purse that is being paid "1 Money for each 5 Entries", the total number of purse entries is divided by 5 to determine the number of payouts. One pay equals 100%, two pays pay 60-40, three pays 50-30-20, four pays 40-30-20-10 and so on.

### **Lewis Purse**

The Lewis Purse is based on the final scores as they are posted when the event has been completed and gives every entry an equal chance to win, no matter what his/her shooting ability. Your ATA classification has nothing to do with what group or class you are in the Lewis Purse. Your group or class is determined solely by the rules below.

When the shooting has been completed, the scores are listed in numerical order from the highest to the lowest. They are then divided into as many groups as listed in the program. For example if there were 50 entries and three groups (classes) the top group would have 16 entries and the lower two groups would have 17 entries. The top score (including all ties in each group) would be the winner and would win one third of the total entry. Ties divide.

Since there will often be odd numbers of entries and tie scores on the dividing line between groups, the following rules will be applied:

1. Where a short group is necessary, due to an odd number of entries, the short group (s) will head the list.
2. Where the line of division fall in a number of tie scores, the entries are assigned to the group in which the majority of the scores fall.
3. Where an equal number of tie scores appear on either side of the dividing line,

entries shall be assigned to the head of the lower group.

4. Where the original division is changed due to tie scores, the change will only apply to the groups directly affected and the original division shall continue for other classes.

As an example in a 100 target event, with a Lewis Purse with three classes paid 100%. If there are 25 entries the final scores are arranged in numerical order from high to low. Lines are drawn between the three groups defined in the program. Since there are 25 entries there would be three groups of 6 entries and one group of 7. The short groups appear in the top. Final divisions and winners are determined per the above rules.

## Rules of Trapshooting Etiquette

1. Make sure you understand where your assigned trap bank is located. Be sure you are behind the bank well in advance of your turn to shoot. Forcing the rest of your squad to wait for you is most inconsiderate, and it holds up every squad behind you. This also means having all of your equipment and gear ready to go.
2. Be ready when your squad is called and when it is your turn to shoot in the squad.
3. Do not lean over each time to pick a shell out of a box on the ground. Have your shells where you don't have to stoop to get them, it is distracting to other shooters.
4. Do not raise your gun until the shooter ahead of you fires. Avoid any unnecessary movement on your post, which might distract or interfere with other shooters.
5. Remain on your post, standing facing the trap quietly, until the fifth person has fired and then move to the next post. At the end of the round, remain still on your last post facing the trap until the last person has fired the last shot. If you are leadoff do not fire until you have checked and insured that all members of the squad are on their post and ready after each change of post.
6. Never load your gun before changing positions. When going from Post 5 to Post 1, turn to the right to avoid bumping guns with the shooter coming from Post 4. When moving from Post 5 to Post 1 always walk behind the other shooters.
7. Load only one shell at a time, except in doubles. If a delay occurs, remove the shell(s) from the chamber. Close your gun only when you are on the Post and facing the trap. Close it only when you are preparing to shoot and avoid disturbing other shooters when doing so.

8. Do not allow ejected shells from your gun to hit or annoy other shooters.

9. No unnecessary talking on the firing line. When not on the firing line, keep your voice down when you are around other squads who are shooting. Remember, other shooters on the squad and on adjacent traps deserve to shoot undisturbed. Coaching is not allowed while shooters are on the line.

10. Time your shooting to establish a rhythm in the squad. Call for your target in a clear voice; do not call in such a loud voice so as to trip the voice release on adjacent fields.

11. Be a sportsman at all times. If you are shooting well others are aware of it and you don't need you to brag, by the same token if you are having a bad day accept it without complaint or displays of anger. Don't do anything that might interfere with other shooters.

12. Observe safety rules. Do not point your gun at another, even if you think it is unloaded. On the firing line, always keep your gun pointed toward the ground or the trap house. Off the firing line keep your action open and your muzzle pointed in a safe direction. Treat every gun as if it is loaded.

13. Shooters are almost always happy to have you look at their guns if you ask permission first. Do not pick up another shooters gun from the gun rack and handle it without asking.

**14. Above all, have fun and treat every other shooter the way you would like to be treated.**
