# A MESSAGE FROM OUR CO-CHAIRS

## Overview

Last year was a busy year to be sure, particularly because it was the last year of our first five-year Contribution Agreement under the auspice of the Public Health Agency of Canada's Community Action fund.

As Co-Chairs, we, and all our Board colleagues, assume a role that maintains a higher-level strategic perspective in our work planning, and in the activities that we undertake with by, and for CPPN members and our partners and allies from across the country. This part of the annual report will reflect on the "SMART" objective and the overarching strategic directions and that our work together strived to achieve last year, and over course of our five-year funding agreement.

### Our "SMART<sup>1</sup>" objective

"By 2022, the Canadian Positive People Network (CPPN) will have delivered one hundred Interventions (i.e., engagement actions) to 180 people living with HIV and/or HIV co-infections (hepatitis C, STBBIs) across Canada to facilitate:

- Strengthened capacity in, self-confidence, and credibility by 20%, and
- Twenty percent of participants will report having applied the new skills in local, regional, and national interventions (i.e., engagement actions)."

### Our strategic directions

Our strategic directions pave(d) the way for us to meet specific short- and medium- term outcomes. Last year and, indeed, over the course of our five-year funding agreement, the CPPN's activities sought to:

1. Strengthen capacity (skills, competencies, and abilities) of priority populations and audiences to prevent infection and improve outcomes, and
2. Enhance application of knowledge in community-based interventions.

The CPPN engaged an independent, external Consultant to complete a comprehensive (final) evaluation process. Many CPPN members contributed by way of surveys and/or "key informant" interviews; all participants were provided a peer engagement payment in recognition of their lived and living experience, and of their expertise.

## The Highlights Reel

### Our Membership

#### How old we are AND how long we have been positive

The average age of CPPN members is 51 years. The youngest member is 28 years old, and the eldest member is 79 years old. Of all CPPN members who responded (n=99), those aged 41-50 years represent the broadest range of “years positive”: 48% have been living with HIV for between 11 to 20 years.

Age range	Number of CPPN members (n = 99)
20 to 30 years	2
31 to 40 years	15
41 to 50 years	19
51 to 61 years	38
61 to 70 years	17
70+ years	5

#### Where we live and how we identify with our race/ethnicity

As the graph below clearly illustrates, most CPPN members live in Ontario and British Columbia (59% and 15% respectively).

From the beginning, we knew that the CPPN was represented by members from across the country. However, until last year, we really did not know how diverse we are. Here is what we know now:

- Of members who responded (n=91), 82% reported that they were born in Canada while 18% were foreign-born.
- For those members who were foreign-born, their arrivals to Canada were as early as 1953 and as recently as 2016.
- An average of 74% of members identify as Caucasian.

- Fifteen percent of those between the ages of 31 and 40 years identify as Black.
- Eleven percent of members aged between 41 and 50 years identify as South Asian.
- Six percent identify as First Nations.
- Three percent identify as Algonquin/Métis.

# NOTES TO FINANCIAL STATEMENTS

## Accounts

When you have a document that shows a lot of numbers, it's a good idea to have a little text that explains the numbers. You can do that here.

## Debt

Of course, we would all prefer to just have profits. But if you've got any debt, this is the place to make notes about it.

### Debt

### Going Concern

Okay, you get the idea. If you've got notes to add about your financials, add them here.

***“Strong Caption Goes Here.
