

#### CREATING A CLEANER, SAFER, HEALTHIER WORLD.

# 5700

# INDUSTRIAL-STRENGTH FLOOR SCRUBBER

- Outstanding cleaning performance from aggressive scrubbing system delivering up to 300 lbs of down pressure
- Maximized machine longevity from industry-leading engineering and industrial-grade construction
- Just-scrubbed floors are clean, dry and safe for traffic in seconds with ec-H2O<sup>™</sup> or FaST<sup>®</sup> technology

## EXCELLENT CLEANING PERFORMANCE AND WORRY-FREE OPERATION FROM THE BENCHMARK FOR INDUSTRIAL SCRUBBERS

The industrial-grade, heavy-duty 5700 sets the standard for walk-behind scrubbers, providing consistent, quality cleaning results even in the harshest environments.

#### RUGGED, INDUSTRIAL-STRENGTH DURABILITY

Aluminum squeegee assembly and scrub heads, shock-absorbing frame, and durable polyethylene construction enable the 5700 to withstand severe cleaning challenges.

#### OUTSTANDING PERFORMANCE FROM AGGRESSIVE SCRUBBING SYSTEMS

Up to 300 lbs of down pressure, optional cylindrical scrubheads, and heavy-duty motor options provide the scrubbing strength to meet the highest cleaning standards.

#### THE SAFE WAY TO CLEAN

Increase safety and cleanliness with ec-H2O<sup>™</sup> technology or FaST<sup>®</sup> Foam Scrubbing Technology. The 5700 uses up to 70% less water with both technologies. ec-H2O uses no detergent. FaST Foam Scrubbing Technology uses up to 90% less detergent than traditional scrubbers.

#### FLEXIBILITY AND VERSATILITY

Choose from three path widths, along with an optional off-aisle power wand for greater reach. An optional dual vac picks up bulky, tough soils found in industrial facilities.

#### MAXIMUM UPTIME FOR YEARS OF WORRY-FREE OPERATION

Field-proven results and exclusive 10/3/3 warranty mean you can count on the 5700 to clean day after day.

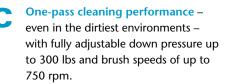

# INSIDE THE **57000**

F

Withstands the harshest cleaning environments with thick polyethylene construction and a rugged, shockabsorbing frame and scrub-head linkage.

Maximize productivity with ec-H2O, FaST, or ES technologies.

#### **Reduce maintenance costs** with breakaway squeegee, large demisting chamber and scrub heads that provide long-life corrosion resistance.

**Fully customizable** to meet your specific needs. Choose from three path widths and an off-aisle power wand.

Maximize operator ease with smart ergonomic features like a heightadjustable console that puts controls within easy reach.

### EXCLUSIVE TECHNOLOGIES (optional cleaning innovations)

All technologies increase scrub time up to three times using a single tank of water.

ec-H2O technology electrically converts water into an innovative cleaning solution that cleans effectively, saves money, improves safety, and reduces environmental impact\* compared to daily cleaning floor chemicals and methods.

\* Based on a study by EcoForm<sup>™</sup>. Visit www.tennantco.com for more information.

**FaST Foam Scrubbing Technology** uses up to 70% less water and 90% less chemicals to improve floor traction as certified by NFSI, helping reduce the risk of slip and fall accidents.

ES® Extended Scrubbing productivity enhancement system recycles cleaning chemicals to increase uptime and improve productivity by scrubbing floors using 66% less chemicals than traditional cleaning methods.

#### ENVIRONMENTAL STEWARDSHIP

ec-H2O<sup>™</sup> and FaST<sup>®</sup> technologies are NFSI (National Floor Safety Institute) Certified. NFSI certified products must pass a 2-phase wet slip resistance process and have been shown to reduce the potential for slip-and-fall accidents.

ec-H2O and FaST technologies may contribute to LEED or LEED-EBOM (Existing Building: Operations & Maintenance) points, provided other appropriate criteria are met. For more information on obtaining LEED points, please contact your sales rep or refer to the USGBC website at: www.usgbc.org.

FaST is a Green Seal (GS-37) Certified Detergent. Green Seal evaluates and certifies cleaning products based on criteria such as the toxicity of the product, skin and eye irritation, skin sensitization, combustibility, toxicity to aquatic life, and packaging.

Choose GE Capital or U.S. Bancorp, our leasing providers, for simple, quick financing with flexible upgrade options.
