Should trainees have emergencies and need to miss a day of the training, a recording of the day will be provided; however, please note that this training requires active participation in various music therapy experientials so attending via recording is only available for emergency situations.

Additionally, this training includes a 3:1 trainee to trainer ratio to ensure we have the appropriate amount of people available for various experientials. As such, if you accept a spot into the training and find out that you are no longer able to participate, please let us know as soon as possible so that we can extend the offer to others who have applied for the training.
