

Amelia-Nottoway Technical Center

Friday News 9-18-2020

DID YOU KNOW...CTE offers real options for students to explore rewarding careers! The CTE programs at ANTC allow students to explore options for their future – inside and outside of the classroom. Through CTE, students are able to start their path toward a career that they are passionate about, while earning valuable experience.

The field of Cosmetology may lead to a variety of professions in the beauty industry. ANTC cosmetology students have the opportunity to explore career options as Hairstylists, Estheticians, Salon or Spa Manager, and Nail Technicians. Below, students discuss care for skin, hands, and feet, developing experience in providing facials, manicures, pedicures, and nail enhancements.

Below, Medical Assistant students are seen conducting patient assessments. During this exercise, students had to practice professionalism, demonstrate listening and speaking skills as well as practice customer service skills. As part of a Medical Assistant's job duties they must obtain a patient's medical history by asking questions about their medical conditions, medications, and allergies. Then the MA records any findings into the patient's chart and informs the physician of the results.

This school year may be viewed as the most interesting year ever. Undoubtedly, we will be talking about it for the rest of our lives. Classrooms and schedules are different, but we must continue to teach and learning must still occur! Many things certainly may look different and we may face many challenges, but the ANTC staff will always work together as a team to achieve the best outcomes for our students. We must constantly remind ourselves that we have "Champions At Work!"
