

SenSafe® Test Strips

Avanale Water Solutions have supplied SenSafe® product to Australian Gov't projects, Industry and Hospitals for over 15 years.

SenSafe® is a flagship product. The patented SenSafe® test strips are the most accurate sensitive, affordable and easy to use on the market. They have revolutionized the way water testing is done today.

Combining sensitivity with safety is how SenSafe® test strips got their name. Using their patented aperture design, SenSafe® test strips allow the aqueous solution to pass back-and-forth through the impregnated chemical membrane. This unique design allows for the lowest sensitivity possible on a test strip. Coupled with this design is another unique feature, they contain 1/100th the amount of chemical compared to most commonly used test strips.

TESTS AVAILABLE

Ammonia	Chloride	Free Chlorine	Metals
Arsenic	Chlorine Dioxide	Iodine	MPS
Atrazine	Chromium	Iron	Nitrate
Bacteria	Copper	Lead	Nitrite
Borate	Cyanide	Manganese	Ozone
Bromine	Cyanuric Acid	Mercury	Peracetic Acid
Permanganate	Protein	Sulfate	Zinc
Peroxide	Quaternary Ammonia	Sulfide	
Pesticide	Radiation (Gamma & Beta)	TDS	
pH	Salinity	Total Alkalinity	
Phosphate	Silver	Total Chlorine	
Propylene Glycol	Simazine	Total Hardness	

USA EPA Compliant

Quick® Arsenic Mini	481396-5	ETV Verified	
Quick® II Arsenic Mini	481303-5	ETV Verified	
Quick® Arsenic Low-Range II Mini	481301-5	ETV Verified	
Quick® Arsenic Ultra-Low II Mini	481300-5	ETV Verified	EPA/ETV
Quick® Arsenic	481396	ETV Verified	EPA/ETV
