

Resilience Consulting

We provide end-to-end crisis management and business continuity services from assessments and plan designs, to rehearsed drills and emergency security services in the field.

In today's hyper-connected world, businesses must adapt and remain operational throughout disruptive changes, avoiding interruptions on any scale. Risk management is at the core of being resilient, and for over 30 years, Risk Mitigation Technologies, LLC has been on the front lines managing risk.

Achieving resilience starts with a comprehensive assessment of every aspect of your business, putting business continuity and crisis management plans in place as well as operational workarounds. We provide end-to-end crisis management and business continuity services from assessments and plan designs, to rehearsed drills, to emergency security services in the field.

Our experience in crisis management, risk assessments, emergency preparedness, and business continuity planning services assist your organization to utilize industry standards and proven best practices, while addressing legal and regulatory requirements. Our analysis and recommendations are designed to specifically support your organizational requirements.
