**THE BUFFING PAD
SPECIALIST** *Since 1987*

Made In USA

Automotive / Marine / Aerospace / Industrial

TECHNICALLY ADVANCED & QUALITY MADE IN THE USA!

Buff & Shine's innovative buffing pad and cleaning accessory products provide technically advanced solutions to customers in the Automotive, Marine, Aerospace and Industrial markets worldwide.

All of our buffing pads are designed, engineered and manufactured in our state-of-the-art manufacturing facility in Rancho Dominguez, California by our talented in-house team.

We specialize exclusively on buffing pads and related products and are focused on offering the best possible products on the cutting edge of buffing and cleaning technologies:

- Our worldwide patent-pending Center Ring Pad System sets the new standard for smooth, balanced buffing.
- Our comprehensive offering of U.S. and Euro foams is second to none.
- We offer the most comprehensive range of wool buffing pads available.
- We also offer a full range of cleaning accessories: Carpet Film, Microfiber Cleaning Products, Sponges, Cleaning Accessories and Steel Wool.

Buff and Shine's quality control guidelines ensure top quality, consistency and durability. You can rely on our commitment to excellence in both customer service and in producing top quality products!

Made In USA

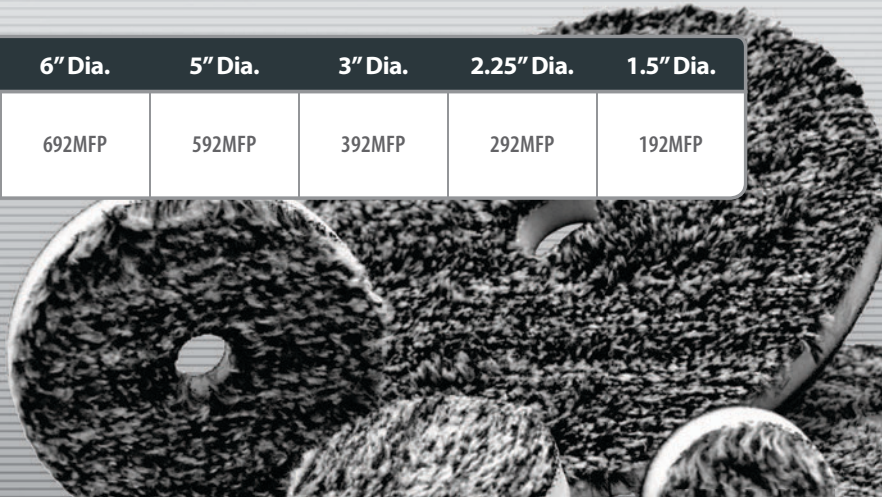

Buff and Shine Uro-Fiber™ Pads are designed to fully maximize the detailing potential already seen in microfiber pads. With a 25% lower pile than traditional microfiber pads, Buff and Shine Uro-Fiber™ Pads also feature a blend of two different microfiber grades into just one pad. These two features, never before seen in a microfiber pad, allow you to cut, polish and finish in just one step!

While the black and white fibers found in the Buff and Shine Uro-Fiber™ Pads lead to an overall attractive appearance, they are for so much more than just looks. With both cutting fibers and polishing fibers blended together into one pad, you are now able to remove light to moderate scratches and swirls, polish to perfection, and buff to a high shine in just one pad! Although, of course, you will need a clean pad for each step.

Product	Application	Thickness	6" Dia.	5" Dia.	3" Dia.	2.25" Dia.	1.5" Dia.
	Universal	.375"	692MFP	592MFP	392MFP	292MFP	192MFP

URO-TEC™

- Engineered for perfect balance
- Open cell foam for heat disbursement
- Open cell foam for even product spread
- Designed for Long Throw Polishers & Orbitals
