DUSTLESS BRUSH

— Gordon Brush Mfg. Co., Inc. —

INNOVATIVE PRODUCTS
THAT CLEAN BETTER & LAST LONGER

We of Milwaukee Dustless Brush pride ourselves in a team approach to serving our customers' needs. The goal of our continuous improvement philosophy is to provide our customers with the best value possible. This value is a combination of innovative products built using only the highest quality components and delivered to our customers on time.

Speed Sweep®

No other brush comes close to matching the unique features of the Speed Sweep® system... a steel back is placed over the brush block and crimped permanently onto the block. Steel rivets are fastened through the entire block to secure the adjustable steel socket.

FEATURES

- Steel back
- Narrow brush block-strength of the steel back allows for the use of a thinner, narrower brush block
- No large holes drilled in center of block
- Adjustable steel socket and nut
- Steel stud in handle will not strip or break when tightened

BENEFITS

- Block will not crack or split
- Lightweight and easier to use
- Speed Sweep® is strongest in the center of the brush where ordinary brushes are weakest
- An ergonomic floor brush adjustable to suit the users height
- Handle can be frequently reversed to keep bristles in shape for longest wear

Speed Sweep® fine sweeping for smooth surfaces

FINE DUTY BLACK POLYPROPYLENE

Fine polypropylene sweeps light dust and dirt, gives extremely long wear. Careful blend of straight and crimped polypropylene creates a superior brush. 3" bristle trim.

Catalog #	Size	Catalog #	Size

233240	24"	233361	36" blue

GRAY FLAGGED STYRENE

Full body and split tip of each bristle cleans dust and dirt from polished floors to smooth concrete. A popular brush which has replaced horsehair for most smooth surface sweeping. 3" bristle trim.

Catalog #	Size	Catalog #	Size
236140	14"	236300	30"
236180	18"	236360	36"
236240	24"		

GRAY HORSEHAIR - 50% NYLON

Extra body to move light litter while still getting all the finer dust. Especially effective on wood floors. 3-5/8" bristle trim.

Catalog #	Size	Catalog #	Size
220140	14"	220240	24"
220180	18"	220360	36"

TAMPICO CENTER - HORSEHAIR BORDER

Tampico sweeps the light debris; horsehair sweeps the dust. Great for industrial and manufacturing settings. 3-1/4" bristle trim.

Catalog #	Size	Catalog #	Size
214140	14"	214240	24"
214180	18"	214360	36"

EXTRA STIFF BLACK HORSEHAIR

Extra stiff horsehair is a favorite of natural fiber users. Sweeps fine dust and dirt from a wide variety of smooth floor surfaces. 3" bristle trim.

Catalog #	Size
218180	18"
218240	24"

Speed Sweep® for medium sweeping on average surfaces

AVERAGE DUTY POLYPROPYLENE

Straight polypropylene will not mat or tangle while sweeping a variety of debris. Not harmed by water, chemicals or grease, and is extremely long wearing. 3-1/4" bristle trim.

Catalog #	Size	Catalog #	Size
231140	14" black	231240	24" black

232241	24" blue	232361	36" blue

UNION FIBER CENTER - GRAY HORSEHAIR BORDER

Stiff center moves heavy debris; softer border sweeps light and medium dirt. The combination bristles do a clean sweep on a variety of surfaces. 3-1/4" bristle trim.

Catalog #	Size
270140	14"
270180	18"
270240	24"

WIRE CENTER - TAMPICO AND HORSEHAIR

Center row of steel wire moves paper, metal and scraps which other filament brushes pass over. Users with difficult sweeping problems find this brush an ideal solution. 3-1/4" bristle trim.

Catalog #	Size
217180	18"
217240	24"

UNION FIBER

Mixture of bassine, palmetto and tampico fiber sweeps debris and gives long service. A great tool for the dirtiest jobs. 3-3/8" bristle trim.

Catalog #	Size
212180	18"
212240	24"

Speed Sweep® for heavy duty sweeping on rough surfaces

HEAVY DUTY POLYPROPYLENE

Out-sweeps and out-wears any other brush, while resisting abrasion, grease, oil, acids, and alkalis. The straight, stiff bristles easily move heavy debris. 4" bristle trim.

Catalog #	Size	Catalog #	Size
230140	14"	230241	24" blue
230160	16"	230300	30"
230180	18"	230360	36"

Catalog #	Size
335310	10"

MULTI PURPOSE SCRUBBERS

Deck and floor scrubber with U-joint swivel design. Brush quickly swivels in any direction to clean floors, walls, baseboards and confined areas. The rugged plastic block will not absorb water yet stands up to chemicals. Accepts handle with ACME thread.

Catalog #	Size	Description
336100	9"	1" Nylon grit bristle.
336110	9"	1-1/4" polypropylene bristle.

Upright Brooms

STEEL BACK UPRIGHT BROOM

11" upright broom with steel back. Excellent for warehouse, print shop and general sweeping. Stapled with heavy duty polypropylene. 5-1/2" trim. Handle #190500 (wood) or #190550 (steel) with 3/8" stud required.

Catalog #
403130

PLASTIC BLOCK UPRIGHT BROOMS

9" red upright broom. Average duty polypropylene stapled into plastic block. For biohazard clean up as well as other environmentally segmented sweeping. 5-1/2" trim. Handle #190700 (wood), #190725 (steel) or #197400 (fiberglass) with ACME thread required.

Catalog #
403182

9" black upright broom. Heavy duty polypropylene stapled into plastic block. Used in restaurants, food processing, commercial and industrial applications. 5-1/2" trim. Handle #190700 (wood), #190725 (steel) or #197400 (fiberglass) with ACME thread required.

Catalog #
403180

COMPACT UPRIGHT BROOMS

9" light duty upright broom with flagged styrene fiber stapled in plastic block. 3-1/4" trim. Handle #190700 (wood), #190725 (steel) or #197400 (fiberglass) with ACME thread required.

Catalog #
403160

9" light duty upright broom with flagged styrene fiber stapled in plastic block. 3-1/4" trim. Steel swivel socket allows for use in congested areas. Handle #190400 with 3/8" stud required.

Catalog #
403161

COMPACT UPRIGHT BROOMS

9" upright broom with medium duty polypropylene in plastic block. 3-1/4" trim. Handle #190700 (wood), #190725 (steel) or #197400 (fiberglass) with ACME thread required.

Catalog #
403150

9" average duty upright broom with steel handle adjustable for use as shop broom or compact push broom. 3-1/4" polypropylene trim. Excellent for sweeping areas too restricted for ordinary brooms such as buses and under benches. Handle #190400 with 3/8" stud required.

Catalog #
403151

Corn Brooms and Upright Brooms

Speed Squeegee®

Heavy Duty Steel

Speed Squeegee® has a steel socket that accepts any Speed Sweep® bolt-in handle, providing a positive connection that won't come loose. Available in a full range of styles such as zinc plated steel and anodized aluminum frames, straight and curved, with stiff neoprene or soft moss rubber blades for superior surface contact.

FEATURES

- Straight heavy duty steel with tough neoprene blade
- Curved heavy duty steel
- Flex Squeegee™ steel frame with double moss rubber blade
- Flip Flop® aluminum frame with split neoprene blade
- Straight aluminum frame with pliable, non-marking blade
- Curved aluminum frame

BENEFITS

- Long wearing under heavy use
- Curved frame improves water retention
- Excellent floor contact for reduced drying time
- Special Flip Flop® socket allows forward and backward strokes in obstructed areas
- Lightweight alternative with anodized aluminum frame

Speed Squeegee® heavy duty steel frame

STRAIGHT HEAVY DUTY

Speed Squeegee® floor squeegees manufactured with heavy gauge zinc plated steel. Genuine neoprene blade has excellent wearing qualities. Steel handle socket accepts any Speed Sweep® bolt-in handle with 3/8" stud. (All steel #190300 or #191400 handle recommended for 30" and 36" squeegees.)

Speedy Mop®

Roller Sponge Mops

Speedy Mop® roller sponge mop is designed to transfer the natural mopping action into a rolling, digging action in the sponge head, quickly loosening ground in dirt. The genuine cellulose sponge head is 5 times more absorbent than foam rubber. Wringer rollers squeeze dirt and water out of the sponge head.

FEATURES

- Genuine cellulose sponge head
- Vinyl wringer rollers
- Wringer is located half way up the powder-coated steel handle
- Plated steel components
- Three sizes to choose from

BENEFITS

- Picks up more water than a foam rubber sponge head
- Water and dirt are squeezed out of the sponge head, not into it
- Easy wringing without bending
- Durable construction withstands rigorous use

PREMIUM SPONGE MOP

Speedy Mop® is constructed with plated steel components to withstand rigorous use. Sponge head is genuine cellulose, 5 times more absorbent than foam rubber. Pure vinyl wringer rollers squeeze dirt and water out of the sponge head. Wringer is located half way up the steel mop handle for easy wringing with no bending. Power strip refill has an abrasive strip attached for heavy duty scrubbing.

eMOP™

Bucketless Floor Cleaning System

Going far beyond the current gravity fed systems, the 4th generation eMOP is a fully pressurized spray mop which dispenses uncontaminated cleaning solution directly to the floor. This lightweight, well balanced and ergonomic tool is designed from the ground up to support modern green cleaning programs. With significant economic savings in reduced chemical usage, reduced water usage, and decreased staff time to perform floor cleaning tasks, the eMOP delivers improved cleanliness while reducing costs and environmental impact.

FEATURES

- *Easy Grip Activator*
- *High density rubber comfort grip*
- *Strong, lightweight aluminum shaft*
- *Semi-translucent integrated fluid reservoir*
- *Mechanical dispensing system*
- *Adjustable nozzle*
- *Full rotation mop head connector*

BENEFITS

- *24 oz. fluid reservoir covers up to 3,200 square feet of floor space*
- *Reduces volume of chemicals required for standard floor cleaning tasks*
- *Only fresh, uncontaminated cleaning solution is applied to the floor*
- *Soiled bucket water and unused chemicals are completely removed from floor cleaning process*

eMOP™ BUCKETLESS FLOOR CLEANING SYSTEM

The eMOP is a fully pressurized spray mop that provides the cleaning staff with a fully self contained dispensing mop system, reducing the economic costs and the environmental concerns associated with traditional wringer bucket and string mop systems.
