

A TURKEY'S LUNCH

What do turkeys eat?

Turkeys are **omnivores**, which means they eat both animals and plants. They mostly eat things that are easy to eat on the ground. In the fall, turkeys need to bulk up! Winter is coming, and food is hard to find when it is covered with snow.

Take a look below for examples of what a turkey would eat!

EAT LIKE A TURKEY

Directions: Take a walk and search for food a turkey might eat. Draw or write your findings on the plate below. **Remember you're not a turkey, so don't eat what you find!**
