THE BRIGHT SPOT: Stop being afraid of what could go wrong and think about what could go right.

STUDENT OF THE WEEK: CHELBY FISCHER – 7TH GRADE

FAVORITE SCHOOL LUNCH: chicken patty with mashed potatoes and gravy

BEST GIFT EVER RECEIVED: a check in the mail

WHAT MAKES A GOOD FRIEND: someone with a good personality who respects others,
who likes sports and lives on a farm

IF I RAN THE SCHOOL: I would make a salad buffet and allow shorts all year. I would also
let students choose where they sit.

I am excited to nominate Chelby Fischer for Student of the Week. Chelby has really worked hard to improve lately and shows a lot of pride in her approach to her school tasks. She asks questions when she needs to, she uses her time wisely, and she is friendly and respectful. Her attitude shows a respect and understanding for herself and those around her. She is always good to volunteer to help in the classroom when needed. Thank you and keep up the good work. – Mr. Ewing

BELLS & WHISTLES to our new janitors, Samantha and Jacob Greife, with Road Runner Building Solutions.

Preschool: We were so happy to finally get outside and enjoy some nice, Spring weather! This week looks pretty nice too! We are almost to the end of our numbers. We have been working really hard to identify 1 through 20! I hope to see you all **Wednesday night** at our final program of the year! We will **sing a few songs**. **Be sure to walk around and see our artwork!** Don't forget to make your final preschool payments as the year winds down. If you need your balance, please let me know! Have a great week! - Miss Stacie

Kind: The countdown is on! Only three more weeks full of learning before these Kindergarteners become big First Graders! This week our focus is butterflies. We will learn and write all about their life cycle. We have some caterpillars on the way, so we will get to watch most of their life cycle up close in our classroom! We will continue to add to our Math lessons in counting coins, sorting, patterns, and reviewing telling time. As summer approaches, don't forget how important reading each day with your student is. It is so easy to get busy, but August will be here before we know it. Please stay learning and reading all Summer long! - Mrs. Stewart

1st/2nd: I hope everyone had a great weekend. This week first grade will be working on the short e sound spelled with "ea" and the bossy r. We will also be working on using prepositional phrases to add detail to our writing. Second grade will be working with silent H and silent C. We will also be working on synonyms and antonyms this week. First grade will be finishing their science unit on tools and technology with a test on Friday. Both classes will have a math test on Tuesday and a spelling test on Friday. Have a great week! - **Mrs. Hird**

3rd/4th: With a full 5-day week this week, our class will be busy continuing to work on items as we start to wrap up the end of the year. Third grade will have a math test on Wednesday. Fourth grade will continue to work on Order of Operation math problems. We will have Star Testing on Tuesday. In Spelling, we will go back to our normal 5-day schedule with a pretest on Wednesday and a regular test on Friday. If your child hasn't mastered their multiplication facts, they will still be required to continue to work on them until mastered. Knowing these are vital to their future success. - **Mrs. Cooper**

5th/6th: All boards and costumes were due today for the Famous Person Wax Museum! Students are excited to present on Wed. and I appreciate everyone's help in getting the materials together. In Science, 5th grade will be finishing Ch. 17 and will test next week. Students will also start on their solar system models. 6th graders will test over Ch. 1 tomorrow. In English, both grades will be looking at analogies. In Reading, students will present roles over Ch. 74-81 today and will continue reading through Ch. 112. In Social Studies, 5th grade will be getting ready to test over Ch. 4 and 6th grade will continue reading Ch. 5. **7/8 Comm. Arts:** Students will finish their Lit. Circle over "War Horse" this week and will get ready to compare the book to the movie next week. Students will also continue working on their WW I posters.

5/6 Math: In fifth grade, students are looking at operations with simplifying decimals, part/whole relationship story problems, and symmetry. Sixth grade is learning about compound interest, diagraming part/whole relationships, and geometric concepts, including strategies for estimating area and cylinder volume. **7th/8th:** In math, seventh grade is looking at scientific notation operations, sphere volume, and linear graphing. Pre-algebra students are drilling with more complex area, applying the Pythagorean theorem, and demonstrating their skill at transformations. In algebra, we are looking at story problems related to systems of equations, writing those, equations algebraically, and the multiplication/division of rational expressions. **Science boards for 7th and 8th are due Weds. Tests This Week:** 7th/8th SS: Weds.

REQUIRED IMMUNIZATIONS: If you have a student who will be entering the 8th grade, Missouri schools require a Tdap (tetanus) booster and Meningitis vaccine. Please make sure students have fulfilled this requirement before school begins in August. Thank you! - **Nurse Amber**

APRIL CHARACTER ED: SELF DISCIPLINE - the ability to control one's feelings and overcome one's weaknesses; the ability to pursue what one thinks is right despite temptations to abandon it.

MUSIC: The final performance of the year is **Wednesday at 7 p.m.** Please have students here at 6:50 in their seats. Please dress nicely and sing loudly. - **Miss Stacie**

APPLETON CITY SUMMER SCHOOL: The Appleton City School District asked us to pass along this information. They will be having summer school May 24th - June 28th. There is a \$100 incentive for students with perfect attendance. Please call (660) 476-2108 for more information.

HELP STUDENTS GET OVER MATH ANXIETY:

Point out that boys and girls can do equally well in math. **Be positive.** Students who think they can do well in math usually do. Kids know that an "I can do it!" attitude helps in sports and many other areas. Tell your child that attitude also makes a difference in math. **Be prepared.** The way to do well in math is by studying every day. There is no magic to success in music, reading, spelling or any other subject, including math. **The key is to study and practice, practice, practice.**
