

The Brushies™

Created by Two Doctor Moms

The World's First Finger Puppet Toothbrush

Sugar bugs run! The Brushies are here to make brushing fun!

Once upon a time, there was a family dentist named Hilary, who day after day treated TINY patients with BIG tooth problems. Even her own children refused to brush. So she called her friend Colleen, a family psychologist who had three little ones who somehow LOVED brushing. Together, they reimagined how brushing should be and came up with four lovable characters, a helpful book and a simple solution: Start early and make it fun...with the Brushies!

Did you know that tooth decay is the #1 childhood disease? Yikes!

Use the Brushies starting at 4 weeks to establish a daily routine. As you chomp, stomp and squish those sneaky sugar bugs, watch your child's love of brushing grow!
