Utility Customers,

This letter is to inform you once again of violations that have occurred in previous years. You have received 2 violation mail outs already this year. I'm including all water systems 1200027-1200028-1200029 and from years 2011-2018 in this letter in order to clear up the written part of the violations with TCEQ. At this time nothing is affecting you, this letter needs to be sent out because it was not sent during the years stated and violated TCEQ regulations.

The **TRI COUNTY POINT WATER SYSTEM 3 PWS ID 1200028 WATER SYSTEM 4 PWS ID 1200029 WATER SYSTEM 2 PWS ID 1200027** has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Public water systems are required to collect and submit chemical samples of water provided to their customers and report the results of those samples to the TCEQ on a regular basis.

We failed to monitor and/or report the following constituent and Monitoring Periods:

<u>Constituent</u>	<u>Monitoring Period</u>
CYN	2011-2012-2013-2014-2015-2016-2017- 3YR2017 YR2017

Results of regular monitoring are an indicator of whether or not your drinking water is safe from chemical contamination. We did not complete the monitoring and/or reporting for chemical constituents, and therefore TCEQ cannot be sure of the safety of your drinking water during that time.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

TRI COUNTY POINT WATER 4 (PWS 1200029) and WATER 3 (PWS 1200028) WATER 2 (PWS 1200027) has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing (or did) to correct these situations.

*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During **2011-2012-2013-2014-2015-2016-2017- 3YR2017 YR2017** we did not monitor or test for LCR and therefore cannot be sure of the quality of your drinking water during that time.*

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for [these contaminants], how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which the follow-up samples were [or will be] taken.

Contaminant	Required sampling frequency	No of samples taken	When samples should have been taken	When samples were or will be taken
LCR SAMPLE TAP	5 / triennial	0	JUNE 1, 2011/2016 – SEPT 30, 2011/2016	
LCR SAMPLE TAP	5 / triennial	0	JUNE 1, 2017 – SEPT 30, 2017	
LCR SAMPLE TAP	5 / triennial	3	JUNE 1, 2018-SEPT 30, 2018	JUNE 1, 2019-SEPT 30, 2019

We are taking the following actions to address this issue:

Retraining of our staff will be conducted, notices to consumers were mailed out, and completing the proper paper work to be in compliance.

Please share this information with all people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have questions regarding this matter, you may contact:
