## **TITLE IX – Proposed Changes**

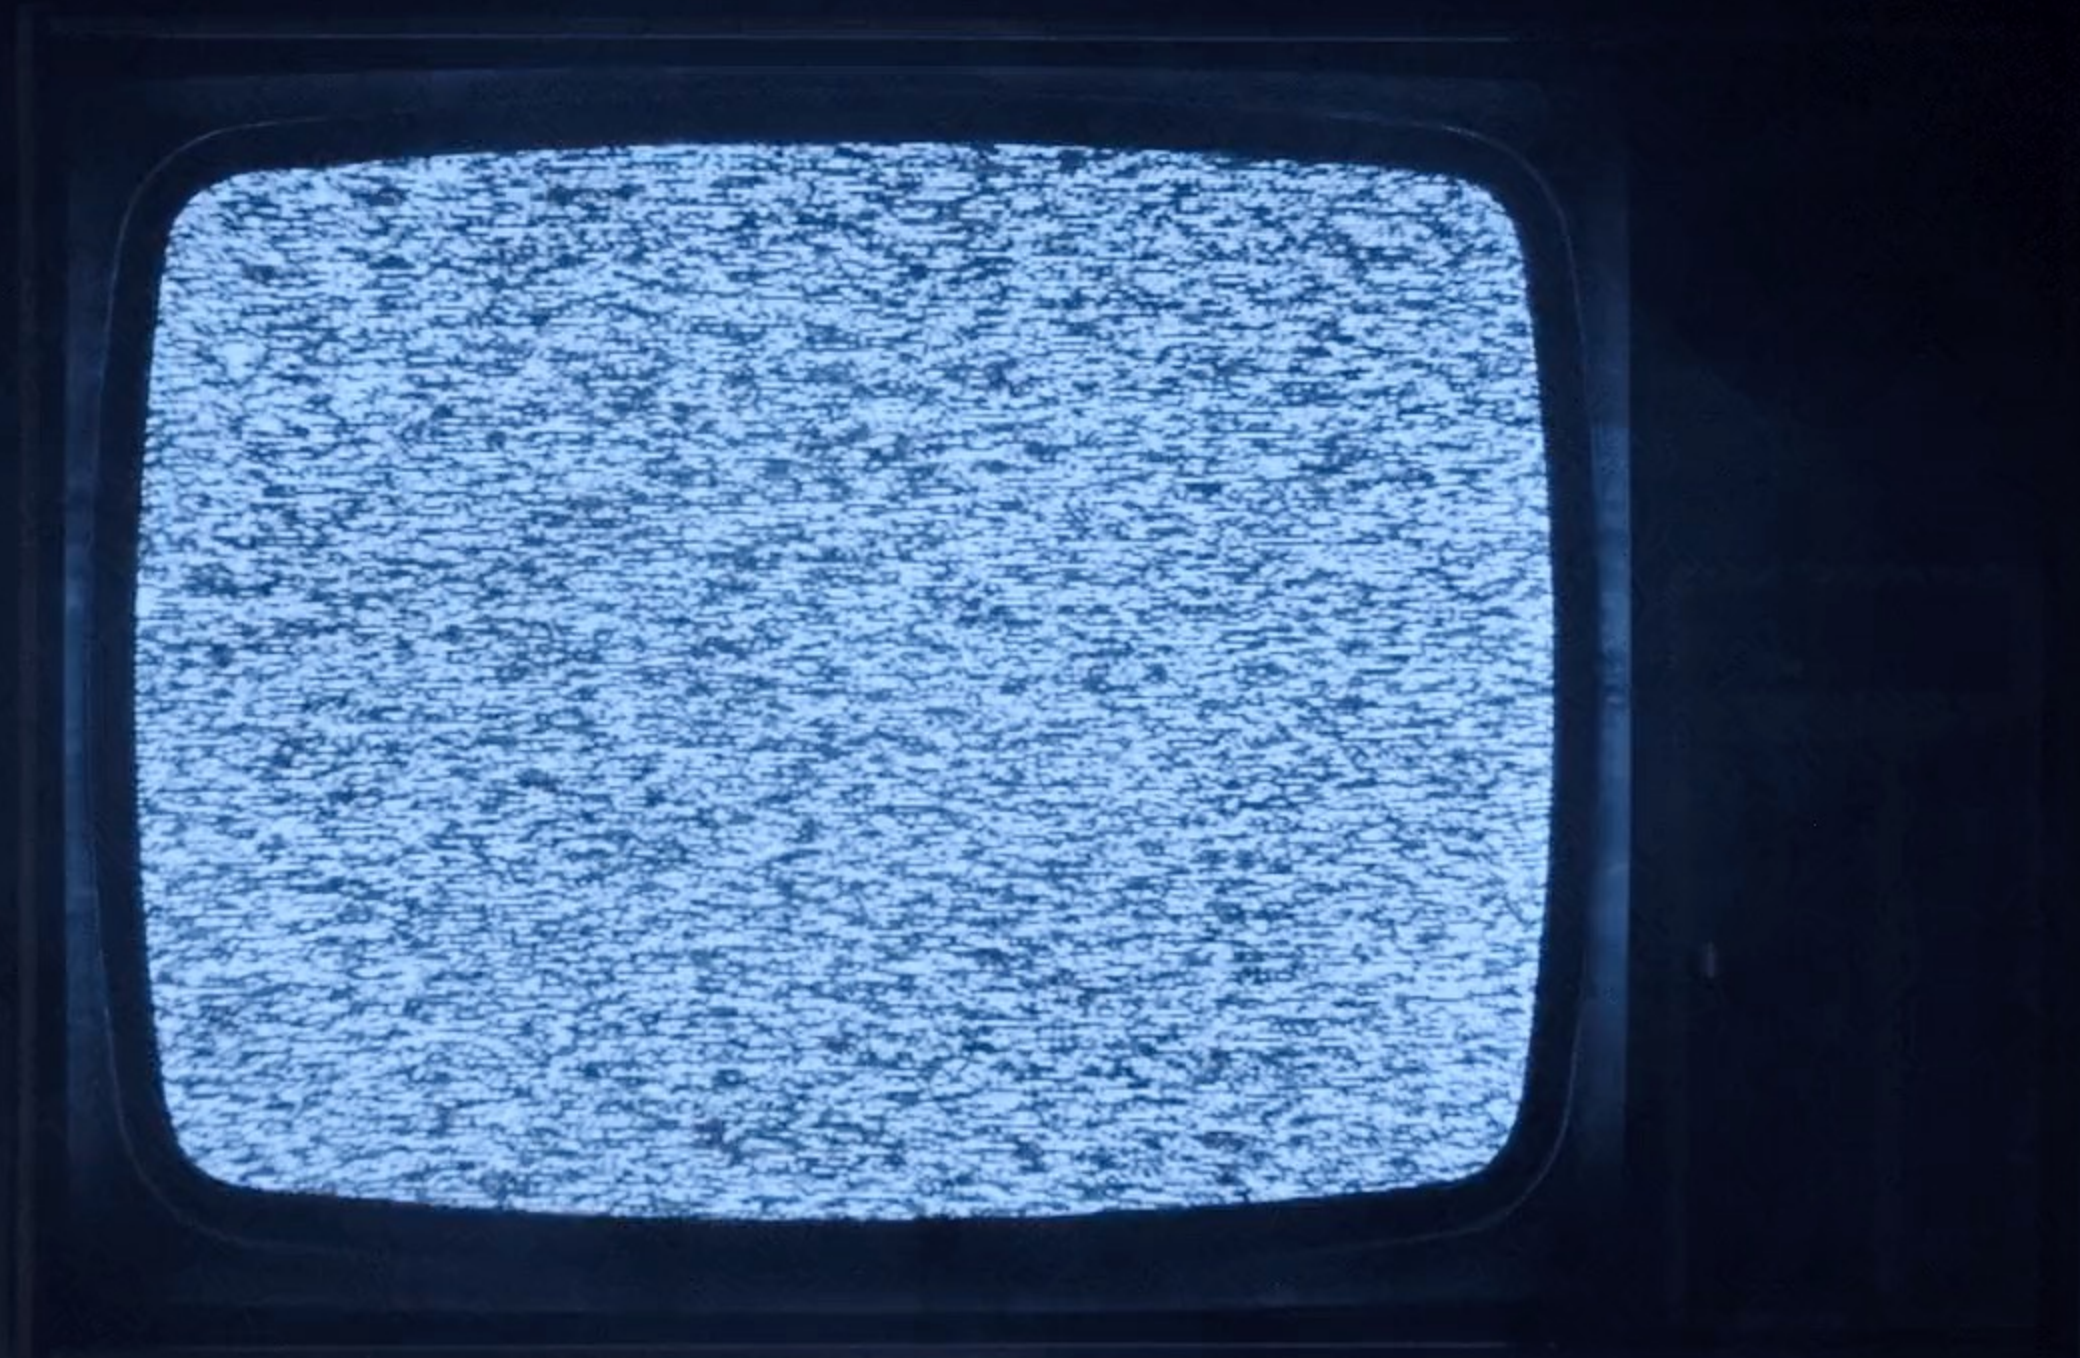

**An existential threat to our communities**

# TITLE IX

WHAT IT IS AND  
WHERE IT'S GOING

[Learn More](#)

# THE BIDEN ADMINISTRATION

Has proposed sweeping new regulations to Title IX that would promote radical gender identity ideology as mandated policy in our schools.

Title IX of the Education Amendments of 1972 regulates every public K-12 school, college, and university in the nation, prohibiting discrimination “on the basis of sex.” As a result, Title IX impacts tens of millions of children and parents.

On July 12, 2022, the U.S. Department of Education published in the Federal Register a Notice of Proposed Rulemaking to rewrite the federal regulations that implement Title IX to expand the law’s scope, without Congressional approval, to include sexual orientation and gender identity. This will have devastating effects on parental rights, children’s well-being, First Amendment rights, and girls’ privacy, safety, and sports opportunities.

# Title IX Proposed Changes

**Create a new category of “sex discrimination” based on sexual orientation and gender identity.**

- ▶ The new rules will dramatically expand the scope of Title IX to include “discrimination on the basis of sexual orientation and gender identity.” They declare that preventing a student from participating in any school activity “consistent with their gender identity” *subjects a student to harm* on the basis of sex.

**Make Upholding Biological Reality a Form of “Sex-based Harassment.”**

- ▶ The new regulations create a new form of “*sex-based harassment.*” Actions like using a child’s given name and biologically accurate pronouns instead of a preferred name and pronouns may be regarded as sex-based harassment.

# Proposed Changes

## Normalize Gender Identity Ideology and Harm Children's Health.

- ▶ The new regulations will promote gender identity ideology in our schools as mandated policy, encouraging students to believe that they can be **“born in the wrong body.”** Studies show that if not socially transitioned, 61% to 98% of children will come to terms with their biological sex. But if transitioned, children will be less likely to reconnect with their sex.
- ▶ Many children will then pursue chemical and surgical alterations that have irreversible life-altering consequences like **sterility and life-long sexual dysfunction**, interrupting healthy growth and development, and other serious risks, like loss of bone density, cognitive problems, blood clots, cardiovascular disease, and cancer.

# Title IX Proposed Changes

**Jeopardize Girls' and Women's Athletic and Educational Opportunities.**

- ▶ These rules will require sports teams to be based on gender identity, instead of biological sex, forcing girls and women to compete on an unfair basis for athletic opportunities and scholarships against males and creating significant risks of injury for girls and women.

## Proposed Changes

### **Require Schools to Open Up Their Privacy Facilities Based on Gender Identity.**

- ▶ Schools would be required to permit males who identify as females to use privacy facilities set aside for females, and vice versa.
- ▶ Girls/women will have to surrender their right to privacy and be placed at increased risk for harassment or assault by males who claim a female identity.

## Title IX Proposed Changes

**Turn Title IX Coordinators into federal law enforcement officials.**

- ▶ The new regulations give Title IX Coordinators sweeping new authority to enforce the new mandates. They empower Title IX Coordinators to decide whether to make a complaint against a school official or another student even if a child does not want to.

# Title IX Proposed Changes

## Undermine Parental Rights and Instruction

- ▶ Parental values of modesty, privacy, and safety would be contradicted by school officials who require that children accept opposite sex classmates in their restroom, locker room, or shower
- ▶ Children would be required to affirm that their female classmates are actually male and vice-versa, contradicting their parents' instruction concerning the binary nature of sex
- ▶ Likely lead to universal instruction about sexual orientation and gender identity as normative, contradicting parents' teaching about the created nature of men and women and human sexuality

## Title IX Proposed Changes

### **Threaten Religious Freedom and Free Speech in favor of Gender Indoctrination.**

- ▶ School districts will be forced to adopt policies that compel students and staff to refer to others as something other than their sex. This will violate students' and teachers' First Amendment rights to speak freely and treat others in a manner that is biologically accurate and consistent with their faith.

# WHAT CAN YOU DO?

- ▶ Attend your local school board meetings
- ▶ Contact your legislators
- ▶ Tell them to act against changes to Title IX
- ▶ Spread the word

# CAN WE SUCCEED?

- ▶ **Similar strategy was used for the (In)Equality Act, H.R. 5**
  - **Redefined Sex To Include “Sexual Orientation” and “Gender Identity” through the Civil Rights Act**
  - **Require All Organizations Open to the Public to Open Up Their Bathrooms, including faith based**
  - **Force Faith-Based Organizations to Hire Employees Who Do Not Share Their Beliefs**
  - **Threaten Religious Freedom and Free Speech**
  - **Undermine Parental Rights and Instruction**
  - **Force Health Care Providers to Provide Abortions and Gender Transition Treatments**
  - **Jeopardize Girls’ and Women’s Athletic and Educational Opportunities**
