Here's To a Great School Year- COVID Style

The Early Years Preschool staff would like to welcome our new families and returning families to school. Our 2020/2021 may have started off differently, but promises to be a great one!

The children will meet new friends, adapt to new schedules and routines, and enjoy their classrooms and new settings. We would like to make this transition time as easy and fun as possible for your child.

Some children may need more time than others to adjust to new surroundings, but please know that we will do all we can to ease this process. If you have any concerns regarding this transition period, please feel free to discuss this with your child's teacher and/or Ms. Taz.

We look forward to a fun filled and enriching school year for our Early Years Preschool families. Our teachers are passionate about teaching and guiding your children and we thank you for allowing us this opportunity.

"Education would be so much more effective if its purpose were to ensure that by the time they leave school every boy and girl should know how much they don't know, and be imbued with a lifelong desire to know it."

~Sir William Haley~

Staying Healthy...Keeping Germs at Bay

Young children are building their immune system. They will be ill from time to time in spite of our efforts to provide a healthy and clean environment for them. Please plan a back-up-system, i.e., care for your ill child when you must work and can not be at home.

To prevent the spreading of illness to other students, as well as the teachers, please adhere to the following:

FEVER: Your child should not be brought to school until they have been fever free for 24 hours.

VOMITING: Your child should not come to school if he or she has vomited more than once in the preceding 24 hours.

DIARRHEA: Your child should not come to school, if during the preceding 24 hours, he or she has had more than two episodes of watery stools or inability to get to the bathroom in time.

STREP THROAT: Your child should not return to school until he or she is fever free and has been on antibiotics for 24 hours.

When your child is absent, please notify the school on the day missed. If your child is at school, and he or she should be well enough to participate in all activities.

OF SPECIAL INTEREST

We want your children to make the most of their day at Early Years Preschool. Please dress your child appropriately for the weather. Do not send your child in cowboy boots, crocs or any other open toed shoes. Also make sure that any toys, expect for small soft sleep buddies are left at home.

Thank you for your cooperation
