About this product Product Information Stephen King's 1 bestselling time-travel novel--now a limited series on Hulu starring James Franco On November 22, , three shots rang out in Dallas, President Kennedy died, and the world changed.

What if you could change it back? In this brilliantly conceived tour de force, Stephen King--who has absorbed the social, political, and popular culture of his generation more imaginatively and thoroughly than any other writer--takes readers on an incredible journey into the past and the possibility of altering it.

He asks his students to write about an event that changed their lives, and one essay blows him away--a gruesome, harrowing story about the night more than fifty years ago when Harry Dunning's father came home and killed his mother, his sister, and his brother with a sledgehammer. Reading the essay is a watershed moment for Jake, his life--like Harry's, like America's in turning on a dime. Not much later his friend Al, who owns the local diner, divulges a secret: his storeroom is a portal to the past, a particular day in And Al enlists Jake to take over the mission that has become his obsession--to prevent the Kennedy assassination. From the dank little city of Derry, Maine where there's Dunning business to conduct , to the warmhearted small town of Jodie, Texas, where Jake falls dangerously in love, every turn is leading eventually, of course, to a troubled loner named Lee Harvey Oswald and to Dallas, where the past becomes heart-stoppingly suspenseful, and where history might not be history anymore.

Time-travel has never been so believable. Or so terrifying. Show More Show Less. Add to Cart. Search site: Submit Search. This item is currently not available Email me when Back-In-Stock. What if you could change it back? Stephen King's heart-stoppingly dramatic new novel is about a man who travels back in time to prevent the JFK assassination - a thousand page tour de force. Following his massively successful novel Under the Dome, King sweeps readers back in time to another moment - a real life moment - when everything went wrong: the JFK assassination.

And he introduces readers to a character who has the power to change the course of history. He receives an essay from one of the students' a gruesome, harrowing first person story about the night 50 years ago when Harry Dunning's father came home and killed his mother, his sister, and his brother with a hammer. Harry escaped with a smashed leg, as evidenced by his crooked walk. Not much later, Jake's friend Al, who runs the local diner, divulges a secret: his storeroom is a portal to He enlists Jake on an insane - and insanely possible - mission to try to prevent the Kennedy assassination.

So begins Jake's new life as George Amberson and his new world of Elvis and JFK, of big American cars and sock hops, of a troubled loner named Lee Harvey Oswald and a beautiful high school librarian named Sadie Dunhill, who becomes the love of Jake's life - a life that transgresses all the normal rules of time. President John F. Kennedy is dead. Very Fine hardcover book in a Very Fine dust-jacket. Very Fine tray-case. It takes great brazenness to go anywhere near this subject matter. But it takes great skill to make this story even remotely credible. King makes it all look easy, which is surely his book's fanciest trick. Lev Grossman , in reviewing the novel for Time , called the novel "the work of a master craftsman" but commented that "the wires go slack from time to time" and the book wanders from genre to genre, particularly in the middle. On September 22, , it was announced that a TV series based on the novel was picked up by Hulu.
